31-33 Chesham Street is a new development of six apartments, combining the elegance of period architecture, contemporary design & technology with comfort cooling, bespoke joinery and hardwood parquet flooring. Interior designed by one of London's top interior designers -Todhunter Earle, it is offered with all the furniture, artwork and accessories. Chesham Street is moments walk from Sloane Square and ideally located for the world class amenities of Sloane Street, Belgravia and Knightsbridge.

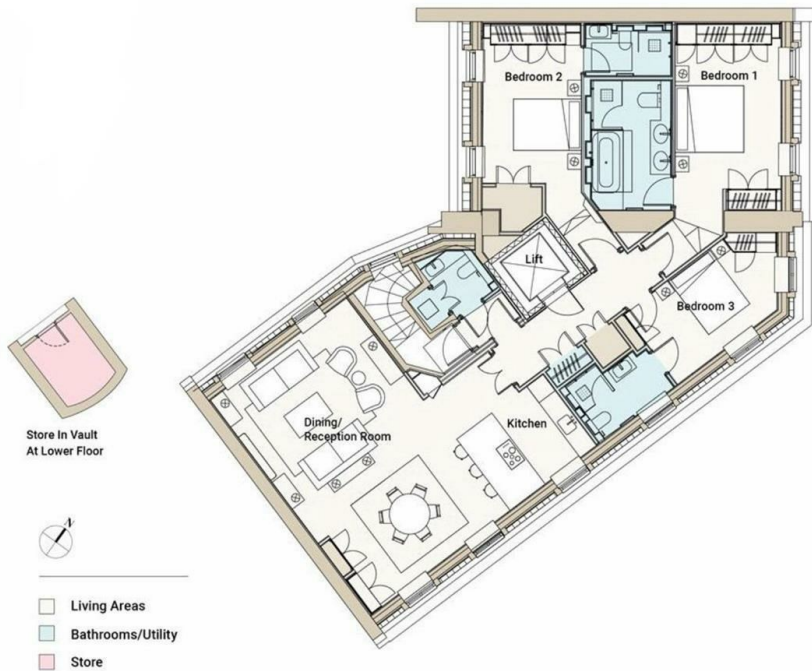

Area Guide: There is a wide variety of architecture and demand for property around Sloane Square is extremely high - therefore properties on the market don't tend to be around for long! The area has many apartments in classic Victorian conversions, including a mix of red brick and white stucco. Mansion blocks and mid-century purpose-built blocks are also popular. Most sought-after are the charming mews streets, where terraces such as Ebury, Lyall and Eaton streets previously housed horses with living quarters above for servants. These properties have now been beautifully transformed into comfortable 21st century
