Bedroom 2 14'11" x 6'5" (4.57 x 1.98)

Shower Room

AGENT NOTES

IMPORTANT INFORMATION:

The electric heating is on a landlord installed prepayment meter supplied by metroprepaid.co.uk

The apartment is fitted with a Vent-Axia Mechanical Extract Ventilation (MEV) unit, which forms a permanent and essential part of the property's ventilation system.

The MEV unit operates continuously at a very low background speed to ensure proper air circulation and to help prevent condensation, damp and mould. When humidity levels rise for example, during cooking or showering the system automatically boosts its extraction rate to remove excess moisture efficiently.

The unit must remain switched on at all times to maintain good air quality and hygiene within the property. It is designed to be energy-efficient, and the running cost is very minimal — typically just a few pounds per month. The electricity used by the unit is paid by the tenant as part of their normal household electricity consumption.

The system should never be disconnected, covered or switched off, as this may lead to condensation or damage within the property

Energy Efficiency Rating		
	Current	Potential
Very energy efficient - lower running costs		
(92 plus) A		
(81-91) B		
(69-80) C		
(55-68) D		
(39-54) E		
(21-38) F		
(1-20) G		
Not energy efficient - higher running costs		
England & Wales		
	EU Directive 2002/91/EC	

Environmental Impact (CO ₂) Rating		
	Current	Potential
Very environmentally friendly - lower CO ₂ emissions		
(92 plus) A		
(81-91) B		
(69-80) C		
(55-68) D		
(39-54) E		
(21-38) F		
(1-20) G		
Not environmentally friendly - higher CO ₂ emissions		
England & Wales		
	EU Directive 2002/91/EC
