

THE
MEWS
HOUSE

Concept Visual of the Mews House looking down from main townhouse.

The Mews House is a 3-storey house set to the back of 14 Wimpole Street and accessed from Wigmore Place. This contemporary property has been designed to seamlessly fit in with its surroundings. Providing 4 bedrooms, 3 bathrooms and a generous open-plan living space on the upper floor.

The simple design of the building is effective in retaining the subservience of the building to the town house, and will be read as a secondary element. The use of materials has been chosen to blend into the existing environment and the new massing will not be an incongruent element in the townscape.
