THE LOCATION

"Victoria Road is one of Kensington's most prestigious residential streets, with an attractive and architecturally varied mix of handsome nineteenth-century houses and later inter-war and post-war buildings. Dating from the early nineteenth century, the street has long been regarded as one of London's most exclusive residential addresses and is also home to a number of diplomatic residences.

The property is within easy walking distance of Kensington High Street and Gloucester Road, both offering an excellent range of shops, restaurants and cafés, while Kensington Gardens/Hyde Park is also a short walk away. High Street Kensington Underground station provides District and Circle line services, with convenient road connections westwards and to Heathrow Airport via the M4."

THE PROPERTY

"A newly refurbished duplex apartment arranged over the ground and first floors of this distinctive building on Victoria Road. The property has been comprehensively refurbished to a high standard, retaining elements of its original character while incorporating extensive improvements to its services, comfort and energy efficiency.

The ground floor provides well-arranged living and entertaining space, with a reception room and separate dining room, both featuring attractive bay windows and overlooking the private landscaped garden. The reception room incorporates a Chesney's fireplace, while the dining room connects directly with the newly fitted kitchen. New parquet-style flooring runs throughout the principal ground-floor rooms, which also benefit from underfloor heating. The first floor comprises two bedrooms, a further study/dressing room and a newly fitted bathroom with underfloor heating. The original timber parquet flooring on this level has been carefully restored, retaining an attractive feature of the original interior.

The refurbishment has also included new double-glazed windows retaining the original Crittall-style design, new central heating and electrical installations, and extensive insulation to the external walls. Together, these improvements have contributed to an EPC rating of C (77), providing a high level of energy efficiency for a property of this character."
