DESCRIPTION

This interesting opportunity offers two homes on one plot in a centrally located part of Beverley and may also offer a development opportunity, either residential or to run a business from home (necessary permissions may be required). Both properties front onto Blucher Lane where they are nicely set back from the road but there is also a sizeable boundary with Holme Church Lane where a gate provides vehicular access. At the very least there is a 3 bedroom end town house with nearly 1200 square feet of space and a detached 2 bedroom bungalow of almost 750 square feet as well as a large yard/garden area.

LOCATION

The property is situated to the east of Beverley town centre at the convergence of Blucher Lane and Holme Church Lane. The houses front onto a side road of Blucher Lane with that and a wide grass verge separating them from the through road. Vehicular access is via Holme Church Lane. There are a number of local shops in the area and the Flemingate Centre is nearby. The property provides convenient access to Beverley town centre and the extensive range of shops, restaurants, pubs and leisure amenities the town offers.

The end town house (No 28) which has been extended to the front, benefits from a gas fired central heating system and uPVC double glazing, and offers almost 1200 sq. ft. of space. The accommodation comprises: an Entrance Hall, Large Living Room, Dining Kitchen, a rear Entrance Hall with a WC, 2 Double Bedrooms, a Single Bedroom and a Bathroom. The detached bungalow (No 30) benefits from gas fired central heating and wooden double glazing, and comprises an Entrance Hall, Living Room, Kitchen, good sized Double Bedroom, a further Bedroom and a Bathroom.

The bungalow (No 30) is appealingly situated alongside Holme Church Lane where it is a no-through road and set back from Blucher Lane by a wide grass verge and a short no-through road that primarily provides access to the neighbouring properties and parking. It may well suit multi generational buyers, someone looking for a home and investment property, a buyer looking for space to accommodate work vehicles or a buyer looking for a development opportunity (subject to necessary permissions). The local area has a number of smaller scale developments that have been completed over the last 15-20 years. The plot is approximately 0.15 acres in size and besides the two residential properties comprises a large hardstanding area with outbuildings/workshops with car ports to the front of them. The rear area is bounded by a high wall and fence.

An unusual but interesting opportunity in this popular residential area of Beverley and early viewing is essential to fully appreciate all that is on offer.
