Vale Close is a stunning location, tucked away in Heaton Mersey's verdant conservation area. A cobbled and sloping road, lined with traditional style attractively painted street lamps, leads to Heaton Mersey park and beyond to the Pennine trail. Period cottages line the road and straddle a great chunk of history.

These three tier, late Georgian properties are hugely sought after. Accessed via a parapet over a quaint passageway - lovingly know as 'the moat' by residents, this delightful and well presented cottage is like none of the others with the stairs having being moved by a previous owner around 50 years ago, which now provide less steep staircases to all floors.

Although described in greater detail below, the accommodation at Daisy Cottage briefly comprises: At ground floor level you find the lounge and second bedroom/office, turned staircases lead up to the first floor and down to the lower ground floor. At lower ground floor level is a spacious open plan split level room with a second reception room currently used as a sitting/dining room and a kitchen with a range of units and built in oven and hob. At first floor level is a good sized double bedroom and a bathroom with white three piece suite including feature free standing roll top bath set on a tiled stage.

Vale Close feels so very special, it is a wonderful release from the hurley burley of everyday life and that becomes more true as you step over the threshold of this period cottage, especially in the rear garden which is surrounded by mature trees. Built circa 1798, these were workers cottages for the dying/bleach works. For all of those other worldly delights, the real world is wonderfully close to hand with the motorway, international airport, rail system and Metro Link all only a short distance away. Also within walking distance, for those social occasions there is an excellent range of cafes, wine bars, renowned Inns and restaurants of Didsbury village, Heaton Moor and Heaton Mersey,

Altogether Daisy Cottage is a unique home just waiting to be discovered.
