About Pelham Structures Limited

Established in 1993 PSL is a local family-run property developer, that over the past 32 years has established a reputation for building attractive bespoke homes. Based in Butts Green, Saffron Walden they primarily operate within a 30 mile radius of their base, with a focus on delivering high quality developments that reflect the local vernacular. Their ambition is always to provide developments that are sympathetic to the character of the area and assimilate well into their surroundings. Pelham Structures originated as a Timber Frame manufacture specialising in offsite construction, which helps ensure build quality and reduces the construction period. Pelham Structures are offering potential customisation to the finishes of the property, dependant on the time of purchase.

Agents Notes

Customisation available subject to discussions with the developer.
