Parking:

A key standout feature of the property is the allocated secure underground parking space, located within a gated car park - a highly desirable asset in this location where parking is at a premium.

Uniquely, the current owner lets the space separately, generating approximately £1,200 per annum, presenting an additional income stream or flexibility for owner-occupiers. Properties in London with private parking not only benefit from stronger demand but can also command pricing and rental premiums, reflecting the ongoing scarcity and desirability of secure parking in the capital.

This combination of modern living, excellent transport links, and an income-producing parking asset makes the property an ideal purchase for first-time buyers, professionals, or investors seeking both lifestyle and long-term value.
