- Mix of Single & Two Storey Homes
- Car Charging Point & GCH
- Ease of Access to Bottesford Village
- High Efficiency Homes
- Highly Regarded Developer
- Garage
- Delightful Village Setting

We have great pleasure in offering to the market "EASTHORPE GREEN". A unique, considered development of 39 beautifully designed and well thought out homes, situated within the highly regarded hamlet of Easthorpe. A pretty village situated within the Vale of Belvoir and adjacent to the well served village of Bottesford, whose wealth of amenities are only a short walk away.

The development is provided by a highly regarded, family owned local developer, GUSTO HOMES. Known for their energy efficient and creatively designed range of high quality bespoke dwellings, as well as a reputation for after sales service and care; Gusto Homes have been providing stunning homes for almost three decades. This site will be of no exception and will have a focus on high efficiency, with the predominantly new build element of the site benefiting from air source heat pumps, ground floor underfloor heating (to the two storey new houses), triple glazed windows, roof mounted photovoltaics, car charging points and enhanced insulation. In addition there will be premium appliances paired with modern kitchens and sanitary ware, with early reservation providing clients an element of colour choices for kitchen door finishes, tile and floor coverings.

The development will be released in several phases, predominantly of new build construction and includes in later stages a selection of single and 1 1/2 storey homes, specifically for the over 55's.

Phase One comes with the release of three individual conversions within "Easthorpe Lodge". A beautiful period home, that is undergoing a sympathetic programme of renovation, which will provide three well proportioned, efficient conversions, which retain elements of their original character but tastefully combined with the benefits of contemporary living, including up to date insulation, flush casement double glazed windows and gas central heating. These, together with two new builds, will be the first taster of this exciting site, with the first five units scheduled for completion in late summer 2025.

ADDITIONAL NOTES

Due to the nature of the conversions of Easthorpe Lodge, the specifications on these three units will differ from the new build dwellings. i.e. central heating system with radiators to ground and first floors, as opposed to the new build two storey homes which will have underfloor heating to the ground floor and radiators to the first. The single storey homes (coming in phase three) will benefit from underfloor heating.

Further details can be provided regarding individual plots and specification, upon request.

The properties will be on mains drainage, electric and water. The new builds will have air source heat pumps and photovoltaics (PV not applicable to the conversions), as well as triple glazed windows and ten year warranties (Six year warranty applicable to the conversions). The three lodge conversions will feature double glazed windows and gas central heating.

Please note:- As is common with similar developments, there will be a resident owned management company for communal areas of the site. Gusto Homes will assist with the setup of this and provide the necessary support to facilitate its introduction. This will all be set up and collected once the managing agents have been set up and the management company activated, later in the site. The developers have informed us that the service charge will be around £250 per year, around £20 per month. Basing this off their other developments that are set up in a very similar way with a similar amount of communal space etc.

PART EXCHANGE / ASSISTED SALE

Part Exchange. On certain plots part exchange maybe considered. Various conditions will apply and will be subject to an initial market appraisal (possibly survey). Properties up to 60% of the plot value maybe considered.

Assisted sales may also be considered as an option. The buyer can reserve the new property for an agreed period. During this time, their existing property is marketed at a competitive price. If a buyer is secured within the agreed period, the sale proceeds in the usual way. If no buyer is found within 4 weeks, one of the following options would be considered. The property price is reduced to stimulate interest; or a decision is made to enter into a part exchange arrangement (subject to criteria). If neither of these options is feasible, the reserved plot would be released back to the market. In both instances various criteria apply and there is no guarantee of a part exchange or assisted sale offer.
