## Important Notice:

This report has been prepared for the purposes and use of the person named on the report. In order to ensure that you have sight of a current and up to date copy of the Home Report it is **essential** that you log onto [www.onesurvey.org](http://www.onesurvey.org) (free of charge) to download a copy personalised in your own name. This enables both Onesurvey and the Surveyor to verify that you have indeed had sight of the appropriate copy of the Home Report prior to your purchasing decision. This personalised report can then be presented to your legal and financial advisers to aid in the completion of your transaction. **Failure to obtain a personalised copy may prevent the surveyor having any legal liability to you as they will be unable to determine that you have relied on this report prior to making an offer to purchase.**

Neither the whole, nor any part of this report may be included in any published document, circular or statement, nor published in any way without the consent of Onesurvey Ltd. Only the appointed Chartered Surveyor can utilise the information contained herein for the purposes of providing a transcription report for mortgage/loan purposes.

# **SINGLE SURVEY TERMS AND CONDITIONS (WITH MVR)**

## **PART 1 - GENERAL**

### **1.1 THE SURVEYORS**

The Seller has engaged the Surveyors to provide the Single Survey Report and a generic Mortgage Valuation Report for Lending Purposes. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited Energy Company.

The Surveyors are authorised to provide a transcript or retype of the generic Mortgage Valuation Report on to Lender specific pro-forma. Transcript reports are commonly requested by Brokers and Lenders. The transcript report will be in the format required by the Lender but will contain the same information, inspection date and valuation figure as the generic Mortgage Valuation Report and the Single Survey. The Surveyors will decline any transcript request which requires the provision of information additional to the information in the Report and the generic Mortgage Valuation Report until the Seller has conditionally accepted an offer to purchase made in writing.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Purchaser's lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report and generic Mortgage Valuation Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors require to amend the valuation in consequence of such information, they will issue an amended Report and generic Mortgage Valuation Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report and generic Mortgage Valuation Report are transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who is competent to survey, value and report upon Residential Property.<sup>1</sup>

If the Surveyors have had a previous business relationship within the past two years with the Seller or Sellers Agent or relative to the property, they will be obliged to indicate this by ticking the adjacent box.

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

### **1.2 THE REPORT**

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

---

<sup>1</sup> Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Codes of Conduct

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

To date, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Single Survey is instructed by the Seller and made available to all potential Purchasers in expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Single Survey may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions.

The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective purchasers and the Purchaser and their respective professional advisers without the prior written consent of the Surveyors.

### **1.3 LIABILITY**

The Report is prepared with the skill and care reasonably to be expected of a competent residential surveyor who is a member of the Royal Institution of Chartered Surveyors.

The Report is addressed to the Seller and was prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would (or, as the case might be, would have been) be disclosed and delivered to

- the Seller;
- any person(s) noting an interest in purchasing the Property from the Seller;
- any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether or not that offer is accepted by the Seller;
- the Purchaser; and
- the professional advisers of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

#### **1.4 GENERIC MORTGAGE VALUATION REPORT**

The Surveyors undertake to the Seller that they will prepare a generic Mortgage Valuation Report, which will be issued along with the Single Survey. It is the responsibility of the Seller to ensure that the generic Mortgage Valuation Report is provided to every potential Purchaser.

#### **1.5 TRANSCRIPT MORTGAGE VALUATION FOR LENDING PURPOSES**

The Surveyors undertake that on being asked to do so by a prospective purchaser, or his/her professional advisor or Lender, they will prepare a Transcript Mortgage Valuation Report for Lending Purposes on terms and conditions to be agreed between the Surveyors and Lender and solely for the use of the Lender and upon which the Lender may rely. The decision as to whether finance will be provided is entirely a matter for the Lender. The Transcript Mortgage Valuation Report will be prepared from information contained in the Report and the generic Mortgage Valuation Report. 2

#### **1.6 INTELLECTUAL PROPERTY**

All intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the Surveyors and shall remain their exclusive property unless they assign the same to any other party in writing.

#### **1.7 PAYMENT**

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid. Additional fees will be charged for subsequent inspections and Reports.

#### **1.8 CANCELLATION**

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection.

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the property, the Surveyor concludes that it is of a type of construction of which the surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the property, the surveyor concludes that the property is exempt under Part 3 of The Housing (Scotland) Act 2006 as detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled, at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for

expenses reasonably incurred and any fee due in light of the final paragraph of this section.

In the case of cancellation by the Seller, for whatever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an Invoice equivalent to 80% of the agreed fee.

## **1.9 PRECEDENCE**

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

## **1.10 DEFINITIONS**

- the “Lender” is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the “Transcript Mortgage Valuation Report for Lending Purposes” means a separate report, prepared by the Surveyor, prepared from information in the Report and the generic Mortgage Valuation Report, but in a style and format required by the Lender. The Transcript Mortgage Valuation Report for Lending Purposes will be prepared with the skill and care reasonably to be expected from a surveyor who is a member of the Royal Institution of Chartered Surveyors and who is competent to survey, value and report on the Property;
- the “Generic Mortgage Valuation Report” means a separate report, prepared by the Surveyor from information in the Report but in the Surveyor’s own format.
- the “Market Value” is *The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm’s-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion*
- the “Property” is the property which forms the subject of the Report;
- the “Purchaser” is the person (or persons) who enters into a contract to buy the Property from the Seller;
- a “prospective Purchaser” is anyone considering buying the Property.
- the “Report” is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- the “Seller” is/are the proprietor(s) of the Property;
- the “Surveyor” is the author of the Report on the Property; and

---

<sup>2</sup> Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Rules of Conduct.

- the "Surveyors" are the firm or company of which the Surveyor is an employee, director, member or partner (unless the Surveyor is not an employee, director, member or partner, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report.
- the "Energy Report" is the advice given by the accredited Energy Company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.

## **PART 2 – DESCRIPTION OF THE REPORT**

### **2.1 THE SERVICE**

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by Statute and this is in the format of the accredited Energy Company. In addition, the Surveyor has agreed to supply a generic Mortgage Valuation Report.

### **2.2 THE INSPECTION**

The Inspection is a general surface examination of those parts of the Property which are accessible: in other words, *visible and readily available for examination from ground and floor levels, without risk of causing damage to the Property or injury to the Surveyor.*

All references to visual inspection refer to an inspection from within the property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the property.

The Inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Single Survey of properties that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a Register of Asbestos and effective Management Plan is in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

### **2.3 THE REPORT**

The Report will be prepared by the Surveyor who carried out the property inspection and will describe various aspects of the property as defined by the headings of the Single Survey report with the comments being general and unbiased. The report on the location, style and condition of the property, will be concise and will be restricted to matters that could have a material effect upon value and will omit items that, in the Surveyor's opinion, are not

significant. If certain minor matters are mentioned, it should not be interpreted that the property is free of any other minor defects.

Throughout the report, the following repair categories will be used to give an overall opinion of the state of repair and condition of the property.

2.3.1 Category 3: Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.

2.3.2 Category 2: Repairs or replacement requiring future attention, but estimates are still advised.

2.3.3 Category 1: No immediate action or repair is needed.

**WARNING:** If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions when the effect can be considerable.

Parts of the property, which cannot be seen or accessed, will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors.

## 2.4 SERVICES

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

## 2.5 ACCESSIBILITY

A section is included to help identify the basic information interested parties need to know to decide whether to view a property.

## 2.6 ENERGY REPORT

A section is included that makes provision for an Energy Report, relative to the property. The Surveyor will collect physical data from the property and provide such data in a format required by an accredited Energy Company. The Surveyor cannot of course accept liability for any advice given by the Energy Company.

## 2.7 VALUATION AND CONVEYANCER ISSUES

The last section of the Report contains matters considered relevant to the Conveyancer (Solicitor). It also contains the Surveyor's opinion both of the market value of the property and of the re-instatement cost, as defined below.

*"Market Value" The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an*

*arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion.* In arriving at the opinion of the Market Value the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of un-inspected parts; the right to use mains services; and the exclusion of curtains, carpets etc. from the valuation. In the case of flats, the following further assumptions are made that:

- \*There are rights of access and exit over all communal roadways, corridors, stairways etc. and to use communal grounds, parking areas, and other facilities;
- \*There are no particularly troublesome or unusual legal restrictions;
- \*There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

*“Re-instatement cost” is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form* unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on the fees).

Sellers or prospective Purchasers may consider it prudent to instruct a reinspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market and/or in the physical condition of the Property

## 1. INFORMATION AND SCOPE OF INSPECTION

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the Surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without moving any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right in a description of the exterior of the property refer to the view of someone standing facing that part of the property from the outside.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the Surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the Surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities will not be inspected or reported on.

Description	The subjects comprise a single storey Detached Bungalow.
Accommodation	GROUND FLOOR Entrance Porch leading to Hallway, Living Room, Open-plan Kitchen/Dining and Sitting Area with Utility Room off. Master Bedroom with En-Suite Bathroom, Three further Bedrooms, Shared Bathroom and Conservatory.
Gross internal floor area (m2)	255 m2
Neighbourhood and location	The subjects are situated within a semi-rural location approximately 1 mile north of the village of Muckhart. All essential social, educational and shopping facilities are available within the general location, whilst a greater range of amenities can be found within Kinross, which lies approximately 7 miles to the east. Furthermore, Dunfermline and Perth are both within a relatively easy driving distance.
Age	circa. 1890
Weather	Dry/Bright.
Chimney stacks	Original brick rendered chimney stacks are provided. These are protected with cement/metal flashings.  Visually inspected with the aid of binoculars where required.

Roofing including roof space	<p>The roof structure is of a timber pitched design, slate clad externally. Metal flashings are fitted to some areas including on the ridge.</p> <p>Access to the roof void area is via access hatches in the kitchen, hall, ensuite, bathroom and utility. As a result of the pitched sections, our inspection was restricted to mainly head and shoulders and revealed that timber sarking boards are laid internally. A roof felt was roughly visible.</p> <p>Glass wool insulation has been laid between joists etc.</p> <p>Solar panels are fitted on the roof pitch.</p> <p>Sloping roofs were visually inspected with the aid of binoculars where required.</p> <p>Flat roofs were visually inspected from vantage points within the property and where safe and reasonable to do so from a 3m ladder externally.</p> <p>Flat roofs have a limited life and depending on their age and quality of workmanship can fail at any time.</p> <p>Roof spaces were visually inspected and were entered where there was safe and reasonable access, normally defined as being from a 3m ladder within the property. If this is not possible, then physical access to the roof space may be taken by other means if the Surveyor deems it safe and reasonable to do so.</p>
Rainwater fittings	<p>The rainwater goods are mainly of PVC type.</p> <p>Visually inspected with the aid of binoculars where required.</p>
Main walls	<p>The main walls of the building are of solid stone and brick/rendered construction. A masonry paint coating finish has been applied to the building.</p> <p>Visually inspected with the aid of binoculars where required. Foundations and concealed parts were not exposed or inspected.</p>
Windows, external doors and joinery	<p>Windows/doors are mainly in PVC double-glazed materials.</p> <p>External soffits to some areas are in timber materials.</p> <p>Internal and external doors were opened and closed where keys were available.</p> <p>Random windows were opened and closed where possible.</p> <p>Doors and windows were not forced open.</p>
External decorations	<p>Decorated areas include timberwork and masonry.</p> <p>Visually inspected.</p>

Conservatories / porches	<p>A conservatory is situated to the rear of the property. This has facing brick dwarf walls, PVC double-glazed windows and under a polycarbonate roof covering.</p> <p>Visually inspected.</p>
Communal areas	Not applicable.
Garages and permanent outbuildings	<p>A double detached car port of sectional concrete construction under a pitched roof is situated within the grounds. Further timber permanent outbuildings are provided. These incorporate a sizeable stable building which contains four separate bays and a tack room. Furthermore, a timber summer house is situated within the grounds.</p> <p>Visually inspected.</p>
Outside areas and boundaries	<p>Garden grounds are well defined, and we understand extended to approximately 3 acres. Your solicitor should confirm the full extent of grounds etc. Garden grounds are defined in walls, fences and laid out in grass pave, chip and shrub materials with a sizeable driveway.</p> <p>An equestrian arena is situated to the foot of the garden grounds.</p> <p>Visually inspected.</p>
Ceilings	<p>Ceilings are in plaster and plasterboard. These are decorated.</p> <p>Visually inspected from floor level.</p>
Internal walls	<p>Internal walls are of brick/plaster/lath and plasterboard. These areas are decorated.</p> <p>Visually inspected from floor level.</p> <p>Using a moisture meter, walls were randomly tested for dampness where considered appropriate.</p>
Floors including sub floors	<p>Internal flooring is of solid concrete and suspended timber construction overlaid with floorboards. Floors are covered in a variety of materials.</p> <p>No access to any sub-floor area was available at the time of our inspection, albeit there is a small hatch to the side wall. This was locked at the time of our inspection.</p> <p>Surfaces of exposed floors were visually inspected. No carpets or floor coverings were lifted.</p> <p>Sub-floor areas were inspected only to the extent visible from a readily accessible and unfixed hatch by way of an inverted "head and shoulders" inspection at the access point.</p> <p>Physical access to the sub floor area may be taken if the Surveyor deems it is safe and reasonable to do so, and subject to a minimum clearance of 1m between the underside of floor joists and the solum as determined from the access hatch.</p>

Internal joinery and kitchen fittings	<p>Wall and base mounted kitchen fittings are provided. These incorporate an island unit with stainless steel sink</p> <p>Internal joinery is in softwood and hardwood materials.</p> <p>Built-in cupboards were looked into but no stored items were moved.</p> <p>Kitchen units were visually inspected excluding appliances.</p>
Chimney breasts and fireplaces	<p>Woodburning stoves are situated within both the kitchen/diner and the living room area. These are understood to be flued through the original chimneys.</p> <p>Visually inspected. No testing of the flues or fittings was carried out.</p>
Internal decorations	<p>Decorated areas include walls, ceilings and internal joinery.</p> <p>Visually inspected.</p>
Cellars	Not applicable.
Electricity	<p>The property has a mains supply with PVC coated cabling and consumer unit located within the utility room.</p> <p>13 amp power sockets are situated within all main apartments and hallways.</p> <p>Solar panels are fitted to external areas, and we are unaware as to whether these are functional and connected to any form of internal electricity etc. Your legal adviser should confirm.</p> <p>Accessible parts of the wiring were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances.</p> <p>Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the Surveyor will state that in the report and will not turn them on.</p>
Gas	There is no mains gas supply to the property or available locally.
Water, plumbing and bathroom fittings	<p>White sanitary fittings are provided within the bathroom, en-suite facilities and shared bathroom etc.</p> <p>A sauna is fitted within a bathroom internally.</p> <p>Where visible, some plumbing installations comprise copper/metal and PVC materials.</p> <p>Visual inspection of the accessible pipework, water tanks, cylinders and fittings without removing any insulation.</p> <p>No tests whatsoever were carried out to the system or appliances.</p>

<p>Heating and hot water</p>	<p>An oil fired central heating system is provided within the property. The Worcester oil fired central heating system is provided within the kitchen. This is also understood to serve the domestic hot water supply supplemented by a spray foam lagged immersion heater within the utility room.</p> <p>Hot water panel radiators are situated within all main apartments and hallways.</p> <p>Accessible parts of the system were visually inspected apart from communal systems, which were not inspected.</p> <p>No tests whatsoever were carried out to the system or appliances.</p>
<p>Drainage</p>	<p>We understand that the drainage system is connected to a septic tank within the grounds. No tests etc. were carried out on this. The septic tank is understood to be SEPA registered.</p> <p>Drainage covers etc were not lifted.</p> <p>Neither drains nor drainage systems were tested.</p>
<p>Fire, smoke and burglar alarms</p>	<p>Smoke detectors are provided within the property.</p> <p>Visually inspected.</p> <p>No test whatsoever were carried out to any systems or appliances.</p> <p>There is now a requirement in place for compliant interlinked fire, smoke and heat detectors in residential properties. The new fire smoke and alarm standard came into force in Scotland in February 2022, requiring a smoke alarm to be installed in the room most frequently used for living purposes and in every circulation space on each floor. A heat alarm also requires to be installed in each kitchen. The alarms need to be ceiling mounted and interlinked. Where there is a carbon fuelled appliance such as a boiler, open fire or wood burner etc. a carbon monoxide detector is also required.</p> <p>The surveyor will only comment on the presence of a smoke detector etc. but will not test them, ascertain if they are in working order, interlinked and / or fully compliant with the fire and smoke alarm standard that was introduced in 2022.</p> <p>We have for the purposes of the report, assumed the system is fully compliant, if not then the appropriate compliant system will required to be installed prior to sale. This of course should be confirmed by your legal advisor.</p>

Any additional limits to inspection	<p>Restricted access to roof void areas.</p> <p>No access to any sub-floor areas.</p> <p>Fitted floor coverings in areas throughout.</p> <p>An inspection for Japanese Knotweed was not carried out.</p> <p>This is a plant which is subject to control regulation, is considered to be invasive and one which can render a property unsuitable for some mortgage lenders. It is therefore assumed that there is no Japanese Knotweed within the boundaries of the property or its neighbouring property.</p> <p>Identification of Japanese Knotweed is best undertaken by a specialist contractor. If it exists removal must be undertaken in a controlled manner by specialist contractors. This can prove to be expensive.</p>
-------------------------------------	---

## Sectional Diagram showing elements of a typical house

Reference may be made in this report to some or all of the above component parts of the property. This diagram may assist you in locating and understanding these items.

## 2. CONDITION

This section identifies problems and tells you about the urgency of any repairs by using one of the above 3 categories:

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Structural movement	
Repair category:	1
Notes:	There is evidence of a settlement having occurred within the structure, but this is not inconsistent with properties of this age and type, and our single superficial examination revealed no evidence to suggest that any movement is of a progressive nature.

Dampness, rot and infestation	
Repair category:	2
Notes:	Using a handheld Protimeter, we took sporadic readings and some medium readings were evident to come lower walls. It is possible that this is condensation. Furthermore, some woodworm was evident to exposed roof timberwork.  It is recommended that a reputable Damp/Timber Specialist carries out a full examination to the property with a view to ascertaining the full extent of defects present.

Chimney stacks	
Repair category:	2
Notes:	General pointing and patching is required to the external chimney stacks. This should be undertaken during any future/ongoing maintenance programme. Original chimneys are assumed to have been blocked, capped and ventilated.

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

## Roofing including roof space

Repair category:	2
Notes:	<p>Roof coverings appeared to have been maintained in a condition consistent with age. General/ongoing maintenance work can however be anticipated, and the ridge tiles were uneven.</p> <p>A reputable Roofing Contractor should be instructed to examine roof areas with a view to preparing a report on its condition.</p>

## Rainwater fittings

Repair category:	1
Notes:	<p>Gutters/downpipes were found to be in a condition consistent with the age and type of property. Some unevenness was evident to some areas and the condition of rhones and downpipes should be monitored regularly.</p>

## Main walls

Repair category:	2
Notes:	<p>Some bossed and cracked sections were evident to the external fabric of the building, and these should be attended to with ongoing patching and pointing as part and parcel of any future maintenance programme.</p>

## Windows, external doors and joinery

Repair category:	2
Notes:	<p>Double-glazed units are of an age whereby general/ongoing maintenance work can be anticipated. Latches, locks, seals, handles etc. will require ongoing maintenance. These factors have been fully reflected within our valuation figure.</p>

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

External decorations	
Repair category:	1
Notes:	External decorations were satisfactory, albeit some redecoration to some areas will be required as part and parcel of any future/ongoing maintenance programme.

Conservatories / porches	
Repair category:	2
Notes:	<p>It was noted that some spalling was evident to the foot of the brickwork of the conservatory and a Building Contractor should be instructed to provide costings for repairs in relation to this. Additionally, again, the condition of the latches, locks, seals, handles etc. as well as polycarbonate roof coverings, will require to be monitored regularly.</p> <p>For the purpose of our report, the condition of the conservatory has been fully reflected within our valuation figure.</p>

Communal areas	
Repair category:	
Notes:	Not applicable.

Garages and permanent outbuildings	
Repair category:	2
Notes:	General maintenance work can be anticipated to external outbuildings as part and parcel of any future/ongoing maintenance programme.

Outside areas and boundaries	
Repair category:	2
Notes:	<p>Garden grounds were reasonably well kept at the time of our inspection, albeit general maintenance work can be anticipated to boundary walls, fences etc. as part and parcel of any future maintenance programme.</p> <p>Some general cracks were evident to external brick walls.</p>

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Ceilings	
Repair category:	1
Notes:	Ceilings were found to be in a condition consistent with age and type of property, albeit general/ongoing maintenance work can be anticipated to areas as part and parcel of any future/ongoing maintenance programme.

Internal walls	
Repair category:	1
Notes:	Walls were found to be in a condition consistent with age and type of property. Some general decoration work is required to some areas and should be undertaken during any future/ongoing maintenance programme.

Floors including sub-floors	
Repair category:	1
Notes:	Floors were generally found to be in a condition consistent with the age and type of property. Floor coverings will require to be attended to in areas.

Internal joinery and kitchen fittings	
Repair category:	1
Notes:	Kitchen fittings appear functional. Internal joinery was found to be in a condition consistent with age.

Chimney breasts and fireplaces	
Repair category:	1
Notes:	Wood burners are assumed to be functional. Any current test certification should be exhibited.

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Internal decorations	
Repair category:	1
Notes:	The property is in relatively fresh decoration, albeit some decoration in areas will be required.

Cellars	
Repair category:	1
Notes:	We were unable to gain access to the cellar area as this was locked at the time of our inspection.

Electricity	
Repair category:	2
Notes:	<p>The electrical system appeared functional, albeit we would emphasise that only the most modern of properties comply with current/ongoing building regulations and as such current test certification etc. should be obtained.</p> <p>The position in relation to fitted solar panels should be ascertained.</p>

Gas	
Repair category:	
Notes:	Not applicable.

Water, plumbing and bathroom fittings	
Repair category:	1
Notes:	<p>Sanitary fittings appeared functional.</p> <p>We did not detect any evidence of defect to plumbing installations. These areas were however mainly and fully concealed.</p>

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Heating and hot water	
Repair category:	1
Notes:	The central heating system appeared functional. Current test certification etc. should be obtained.

Drainage	
Repair category:	1
Notes:	No surface evidence of defect was apparent. The drainage system is assumed to be SEPA registered.

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the comments above for detailed information.

<b>Structural movement</b>	1
<b>Dampness, rot and infestation</b>	2
<b>Chimney stacks</b>	2
<b>Roofing including roof space</b>	2
<b>Rainwater fittings</b>	1
<b>Main walls</b>	2
<b>Windows, external doors and joinery</b>	2
<b>External decorations</b>	1
<b>Conservatories / porches</b>	2
Communal areas	
<b>Garages and permanent outbuildings</b>	2
<b>Outside areas and boundaries</b>	2
<b>Ceilings</b>	1
<b>Internal walls</b>	1
<b>Floors including sub-floors</b>	1
<b>Internal joinery and kitchen fittings</b>	1
<b>Chimney breasts and fireplaces</b>	1
<b>Internal decorations</b>	1
<b>Cellars</b>	1
<b>Electricity</b>	2
Gas	
<b>Water, plumbing and bathroom fittings</b>	1
<b>Heating and hot water</b>	1
<b>Drainage</b>	1

## Remember

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

## Warning

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

### 3. ACCESSIBILITY INFORMATION

#### Guidance Notes on Accessibility Information

**Three steps or fewer to a main entrance door of the property:** In flatted developments the 'main entrance' would be the flat's own entrance door, not the external door to the communal stair. The 'three steps or fewer' are counted from external ground level to the flat's entrance door. Where a lift is present, the count is based on the number of steps climbed when using the lift.

**Unrestricted parking within 25 metres:** For this purpose, 'Unrestricted parking' includes parking available by means of a parking permit. Restricted parking includes parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coinoperated machines.

1. Which floor(s) is the living accommodation on?	Ground.
2. Are there three steps or fewer to a main entrance door of the property?	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
3. Is there a lift to the main entrance door of the property?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO
4. Are all door openings greater than 750mm?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO
5. Is there a toilet on the same level as the living room and kitchen?	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
6. Is there a toilet on the same level as a bedroom?	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
7. Are all rooms on the same level with no internal steps or stairs?	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
8. Is there unrestricted parking within 25 metres of an entrance door to the building?	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO

## 4. VALUATION AND CONVEYANCER ISSUES

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated re-instatement cost for insurance purposes.

<b>Matters for a solicitor or licensed conveyancer</b>	
<p>Absolute ownership assumed.</p> <p>We are unaware of any adverse planning proposals affecting the property.</p> <p>Boundaries/Right of Way should be checked in the normal manner.</p> <p>The subjects have been altered and assumed to have been extended. Your legal adviser should confirm that any relevant documentation etc. is in place. There is a possibility that extended areas were carried out historically.</p> <p>The position in relation to solar panels etc. should be ascertained.</p> <p>???</p>	
<b>Estimated re-instatement cost (£) for insurance purposes</b>	
<p>700,000</p> <p>Seven Hundred Thousand Pounds.</p>	
<b>Valuation (£) and market comments</b>	
<p>575,000</p> <p>Five Hundred and Seventy Five Thousand Pounds.</p>

# MORTGAGE VALUATION REPORT

---

Includes a market valuation of the property.

### Mortgage Valuation Report

Property:	Nether Auchlinsky Cottage Glendevon Dollar FK14 7JX	Client: Ms. Lorna Snowie  Tenure: Outright Ownership.
Date of Inspection:	16/01/2026	Reference: DD3103

*This report has been prepared as part of the seller's instructions to carry out a Single Survey on the property referred to above. The purpose of this report is to summarise the Single Survey for the purpose of advising a potential lender on the suitability of the property for mortgage purposes. The decision as to whether mortgage finance will be provided is entirely a matter for the lender. You should not rely on this report in making your decision to purchase but consider all the documents provided in the Home Report. Your attention is drawn to the additional comments elsewhere within the report which set out the extent and limitations of the service provided. This report should be read in conjunction with the Single Survey Terms and Conditions (with MVR). In accordance with RICS Valuation – Global Standards 2017 this report is for the use of the party to whom it is addressed or their named client or their nominated lender. No responsibility is accepted to any third party for the whole or any part of the reports contents. Neither the whole or any part of this report may be included in any document, circular or statement without prior approval in writing from the surveyor.*

#### 1.0 LOCATION

The subjects are situated within a semi-rural location approximately 1 mile north of the village of Muckhart. All essential social, educational and shopping facilities are available within the general location, whilst a greater range of amenities can be found within Kinross, which lies approximately 7 miles to the east. Furthermore, Dunfermline and Perth are both within a relatively easy driving distance.

#### 2.0 DESCRIPTION 2.1 Age: circa. 1890

The subjects comprise a single storey Detached Bungalow.

#### 3.0 CONSTRUCTION

Traditional solid stone and brick materials, roughcast and rendered externally under a pitched roof, slate clad externally.

#### 4.0 ACCOMMODATION

##### GROUND FLOOR

Entrance Porch leading to Hallway, Living Room, Open-plan Kitchen/Dining and Sitting Area with Utility Room off. Master Bedroom with En-Suite Bathroom, Three further Bedrooms, Shared Bathroom and Conservatory.

#### 5.0 SERVICES (No tests have been applied to any of the services)

Water:	Mains.	Electricity:	Mains.	Gas:	None.	Drainage:	Private.
--------	--------	--------------	--------	------	-------	-----------	----------

Central Heating: Full oil fired central heating system installed.

#### 6.0 OUTBUILDINGS

Garage: None.

Others: Several external outbuildings.

7.0	<b>GENERAL CONDITION</b> - A building survey has not been carried out, nor has any inspection been made of any woodwork, services or other parts of the property which were covered, unexposed or inaccessible. The report cannot therefore confirm that such parts of the property are free from defect. Failure to rectify defects, particularly involving water penetration may result in further and more serious defects arising. Where defects exist and where remedial work is necessary, prospective purchasers are advised to seek accurate estimates and costings from appropriate Contractors or Specialists before proceeding with the purchase. Generally we will not test or report on boundary walls, fences, outbuildings, radon gas or site contamination.				
The subjects have been maintained in a condition consistent with the age and type of property. General maintenance work can be anticipated to areas both internally and externally and we would emphasise that these factors have been fully reflected within our valuation figure.					
8.0	<b>ESSENTIAL REPAIR WORK</b> (as a condition of any mortgage or, to preserve the condition of the property)				
None.					
8.1 Retention recommended:					
9.0	<b>ROADS &amp; FOOTPATHS</b>				
Made.					
10.0	<b>BUILDINGS INSURANCE (£):</b>	700,000	<b>GROSS EXTERNAL FLOOR AREA</b>	290	<b>Square metres</b>
	This figure is an opinion of an appropriate sum for which the property and substantial outbuildings should be insured against total destruction on a re-instatement basis assuming reconstruction of the property in its existing design and materials. Furnishings and fittings have not been included. No allowance has been included for inflation during the insurance period or during re-construction and no allowance has been made for VAT, other than on professional fees. Further discussions with your insurers is advised.				
11.0	<b>GENERAL REMARKS</b>				
Absolute ownership assumed.					
We are unaware of any adverse planning proposals affecting the property.					
Boundaries/Right of Way should be checked in the normal manner.					
The subjects have been altered and assumed to have been extended. Your legal adviser should confirm that any relevant documentation etc. is in place. There is a possibility that extended areas were carried out historically.					
The position in relation to solar panels etc. should be ascertained.					
???					
12.0	<b>VALUATION</b> On the assumption of vacant possession and that the property is unaffected by any adverse planning proposals, onerous burdens, title restrictions or servitude rights. It is assumed that all necessary Local Authority consents, which may have been required, have been sought and obtained. No investigation of any contamination on, under or within the property has been made as we consider such matters to be outwith the scope of this report. All property built prior to the year 2000 may contain asbestos in one or more of its components or fittings. It is impossible to identify without a test. It is beyond the scope of this inspection to test for asbestos and future occupants should be advised that if they have any concerns then they should ask for a specialist to undertake appropriate tests.				
12.1	<b>Market Value in present condition (£):</b>	<b>575,000</b>	Five Hundred and Seventy Five Thousand Pounds.		
12.2	<b>Market Value on completion of essential works (£):</b>				
12.3	<b>Suitable security for normal mortgage purposes?</b>	Yes			
12.4	<b>Date of Valuation:</b>	16/01/2026			

<b>Signature:</b>		Electronically Signed: 304537-4a0e2a31-80db		
<b>Surveyor:</b>	Peter Bennet	MRICS	<b>Date:</b>	19/01/2026

# ENERGY REPORT

---

A report on the energy efficiency of the property.

# energy report

energy report on:

<b>Property address</b>	Nether Auchlinsky Cottage Glendevon Dollar FK14 7JX
-------------------------	--

<b>Customer</b>	Ms. Lorna Snowie
-----------------	------------------

<b>Customer address</b>	Nether Auchlinsky Cottage Glendevon Dollar FK14 7JX
-------------------------	--

<b>Prepared by</b>	Peter Bennet, MRICS Dunfermline - Allied Surveyors Scotland Ltd
--------------------	--

# Energy Performance Certificate (EPC)

Dwellings

# Scotland

**NETHER AUCHLINSKY COTTAGE, GLENDEVON, DOLLAR, FK14 7JX**

**Dwelling type:** Detached bungalow  
**Date of assessment:** 16 January 2026  
**Date of certificate:** 20 January 2026  
**Total floor area:** 260 m<sup>2</sup>  
**Primary Energy Indicator:** 205 kWh/m<sup>2</sup>/year

**Reference number:** 0170-2946-0190-2396-0275  
**Type of assessment:** RdSAP, existing dwelling  
**Approved Organisation:** Elmhurst  
**Main heating and fuel:** Boiler and radiators, oil

## You can use this document to:

- Compare current ratings of properties to see which are more energy efficient and environmentally friendly
- Find out how to save energy and money and also reduce CO<sub>2</sub> emissions by improving your home

<b>Estimated energy costs for your home for 3 years*</b>	<b>£12,984</b>	See your recommendations report for more information
<b>Over 3 years you could save*</b>	<b>£4,041</b>	

\* based upon the cost of energy for heating, hot water, lighting and ventilation, calculated using standard assumptions

## Energy Efficiency Rating

This graph shows the current efficiency of your home, taking into account both energy efficiency and fuel costs. The higher this rating, the lower your fuel bills are likely to be.

Your current rating is **band E (50)**. The average rating for EPCs in Scotland is **band D (61)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

## Environmental Impact (CO<sub>2</sub>) Rating

This graph shows the effect of your home on the environment in terms of carbon dioxide (CO<sub>2</sub>) emissions. The higher the rating, the less impact it has on the environment.

Your current rating is **band E (49)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

## Top actions you can take to save money and make your home more efficient

Recommended measures	Indicative cost	Typical savings over 3 years
1 Internal wall insulation	£7,500 - £11,000	£2346.00
2 Floor insulation (suspended floor)	£5,000 - £10,000	£966.00
3 Solar water heating	£4,000 - £7,000	£387.00

A full list of recommended improvement measures for your home, together with more information on potential cost and savings and advice to help you carry out improvements can be found in your recommendations report.

To find out more about the recommended measures and other actions you could take today to stop wasting energy and money, visit [greenerscotland.org](http://greenerscotland.org) or contact Home Energy Scotland on 0808 808 2282.

**THIS PAGE IS THE ENERGY PERFORMANCE CERTIFICATE WHICH MUST BE AFFIXED TO THE DWELLING AND NOT BE REMOVED UNLESS IT IS REPLACED WITH AN UPDATED CERTIFICATE**

## Summary of the energy performance related features of this home

This table sets out the results of the survey which lists the current energy-related features of this home. Each element is assessed by the national calculation methodology; 1 star = very poor (least efficient), 2 stars = poor, 3 stars = average, 4 stars = good and 5 stars = very good (most efficient). The assessment does not take into consideration the condition of an element and how well it is working. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology, based on age and type of construction. See the addendum section on the last page of this report for further information relating to items in the table.

Element	Description	Energy Efficiency	Environmental
Walls	Granite or whin, as built, no insulation (assumed)	★★☆☆☆	★★☆☆☆
Roof	Pitched, 225 mm loft insulation	★★★★☆	★★★★☆
Floor	Suspended, no insulation (assumed)	—	—
Windows	Fully double glazed	★★☆☆☆	★★☆☆☆
Main heating	Boiler and radiators, oil	★★★☆☆	★★★☆☆
Main heating controls	Programmer, room thermostat and TRVs	★★★★☆	★★★★☆
Secondary heating	None	—	—
Hot water	Electric immersion, standard tariff	★☆☆☆☆	★★★★★
Lighting	Good lighting efficiency	★★★★☆	★★★★☆

## The energy efficiency rating of your home

Your Energy Efficiency Rating is calculated using the standard UK methodology, RdSAP. This calculates energy used for heating, hot water, lighting and ventilation and then applies fuel costs to that energy use to give an overall rating for your home. The rating is given on a scale of 1 to 100. Other than the cost of fuel for electrical appliances and for cooking, a building with a rating of 100 would cost almost nothing to run.

As we all use our homes in different ways, the energy rating is calculated using standard occupancy assumptions which may be different from the way you use it. The rating also uses national weather information to allow comparison between buildings in different parts of Scotland. However, to make information more relevant to your home, local weather data is used to calculate your energy use, CO<sub>2</sub> emissions, running costs and the savings possible from making improvements.

## The impact of your home on the environment

One of the biggest contributors to global warming is carbon dioxide. The energy we use for heating, lighting and power in our homes produces over a quarter of the UK's carbon dioxide emissions. Different fuels produce different amounts of carbon dioxide for every kilowatt hour (kWh) of energy used. The Environmental Impact Rating of your home is calculated by applying these 'carbon factors' for the fuels you use to your overall energy use.

The calculated emissions for your home are 50 kg CO<sub>2</sub>/m<sup>2</sup>/yr.

The average Scottish household produces about 6 tonnes of carbon dioxide every year. Based on this assessment, heating and lighting this home currently produces approximately 13 tonnes of carbon dioxide every year. Adopting recommendations in this report can reduce emissions and protect the environment. If you were to install all of these recommendations this could reduce emissions by 4.6 tonnes per year. You could reduce emissions even more by switching to renewable energy sources.

## Estimated energy costs for this home

	Current energy costs	Potential energy costs	Potential future savings
Heating	£10,302 over 3 years	£6,678 over 3 years	
Hot water	£2,328 over 3 years	£1,911 over 3 years	
Lighting	£354 over 3 years	£354 over 3 years	
<b>Totals</b>	<b>£12,984</b>	<b>£8,943</b>	

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances such as TVs, computers and cookers, and the benefits of any electricity generated by this home (for example, from photovoltaic panels). The potential savings in energy costs show the effect of undertaking all of the recommended measures listed below.

## Recommendations for improvement

The measures below will improve the energy and environmental performance of this dwelling. The performance ratings after improvements listed below are cumulative; that is, they assume the improvements have been installed in the order that they appear in the table. Further information about the recommended measures and other simple actions to take today to save money is available from the Home Energy Scotland hotline which can be contacted on 0808 808 2282. Before carrying out work, make sure that the appropriate permissions are obtained, where necessary. This may include permission from a landlord (if you are a tenant) or the need to get a Building Warrant for certain types of work.

Recommended measures	Indicative cost	Typical saving per year	Rating after improvement	
			Energy	Environment
1 Internal wall insulation	£7,500 - £11,000	£782		
2 Floor insulation (suspended floor)	£5,000 - £10,000	£322		
3 Solar water heating	£4,000 - £7,000	£129		
4 Replacement glazing units	£4,500 - £6,000	£113		

## Choosing the right improvement package

For free and impartial advice on choosing suitable measures for your property, contact the Home Energy Scotland hotline on 0808 808 2282 or go to [www.greenerscotland.org](http://www.greenerscotland.org).

## About the recommended measures to improve your home's performance rating

This section offers additional information and advice on the recommended improvement measures for your home

### 1 Internal wall insulation

Internal wall insulation involves adding a layer of insulation to the inside surface of the external walls, which reduces heat loss and lowers fuel bills. As it is more expensive than cavity wall insulation it is only recommended for walls without a cavity, or where for technical reasons a cavity cannot be filled. Internal insulation, known as dry-lining, is where a layer of insulation is fixed to the inside surface of external walls; this type of insulation is best applied when rooms require redecorating. Further information can be obtained from the National Insulation Association ([www.nationalinsulationassociation.org.uk](http://www.nationalinsulationassociation.org.uk)).

### 2 Floor insulation (suspended floor)

Insulation of a floor will significantly reduce heat loss; this will improve levels of comfort, reduce energy use and lower fuel bills. Suspended floors can often be insulated from below but must have adequate ventilation to prevent dampness; seek advice about this if unsure. Further information about floor insulation is available from many sources including [www.energysavingtrust.org.uk/scotland/Insulation/Floor-insulation](http://www.energysavingtrust.org.uk/scotland/Insulation/Floor-insulation). Building regulations generally apply to this work so it is best to check with your local authority building standards department.

### 3 Solar water heating

A solar water heating panel, usually fixed to the roof, uses the sun to pre-heat the hot water supply. This can significantly reduce the demand on the heating system to provide hot water and hence save fuel and money. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check these with your local authority. You could be eligible for Renewable Heat Incentive payments which could appreciably increase the savings beyond those shown on your EPC, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at [www.microgenerationcertification.org](http://www.microgenerationcertification.org).

### 4 Replacement glazing units

Replacing existing double-glazed units with new high-performance units. Building regulations require that replacement glazing is to a standard no worse than previous; a building warrant is not required. Planning permission might be required for such work if a building is listed or within a conservation area so it is best to check with your local authority.

## Low and zero carbon energy sources

Low and zero carbon (LZC) energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon.

#### LZC energy sources present:

- Solar photovoltaics

## Your home's heat demand

In this section, you can see how much energy you might need to heat your home and provide hot water. These are estimates showing how an average household uses energy. These estimates may not reflect your actual energy use, which could be higher or lower. You might spend more money on heating and hot water if your house is less energy efficient. The table below shows the potential benefit of having your loft and walls insulated. Visit <https://energysavingtrust.org.uk/energy-at-home> for more information.

Heat demand	Existing dwelling	Impact of loft insulation	Impact of cavity wall insulation	Impact of solid wall insulation
Space heating (kWh per year)	37,246.59	N/A	N/A	N/A
Water heating (kWh per year)	2,728.2			

## Addendum

The assessment does not include any feed-in tariffs that may be applicable to this property.

This dwelling has stone walls and so requires further investigation to establish whether these walls are of cavity construction and to determine which type of wall insulation is best suited.

## About this document

This Recommendations Report and the accompanying Energy Performance Certificate are valid for a maximum of ten years. These documents cease to be valid where superseded by a more recent assessment of the same building carried out by a member of an Approved Organisation.

The Energy Performance Certificate and this Recommendations Report for this building were produced following an energy assessment undertaken by an assessor accredited by Elmhurst ([www.elmhurstenergy.co.uk](http://www.elmhurstenergy.co.uk)), an Approved Organisation Appointed by Scottish Ministers. The certificate has been produced under the Energy Performance of Buildings (Scotland) Regulations 2008 from data lodged to the Scottish EPC register. You can verify the validity of this document by visiting [www.scottishepcregister.org.uk](http://www.scottishepcregister.org.uk) and entering the report reference number (RRN) printed at the top of this page.

Assessor's name:	Mr. Peter Bennet
Assessor membership number:	EES/014875
Company name/trading name:	Allied Surveyors Scotland Ltd
Address:	18a Dickson Street Dunfermline KY12 7SL
Phone number:	01383 738 585
Email address:	<a href="mailto:dunfermline@alliedsurveyorsscotland.com">dunfermline@alliedsurveyorsscotland.com</a>
Related party disclosure:	No related party

If you have any concerns regarding the content of this report or the service provided by your assessor you should in the first instance raise these matters with your assessor and with the Approved Organisation to which they belong. All Approved Organisations are required to publish their complaints and disciplinary procedures and details can be found online at the web address given above.

## Use of this energy performance information

Once lodged by your EPC assessor, this Energy Performance Certificate and Recommendations Report are available to view online at [www.scottishepcregister.org.uk](http://www.scottishepcregister.org.uk), with the facility to search for any single record by entering the property address. This gives everyone access to any current, valid EPC except where a property has a Green Deal Plan, in which case the report reference number (RRN) must first be provided. The energy performance data in these documents, together with other building information gathered during the assessment is held on the Scottish EPC Register and is available to authorised recipients, including organisations delivering energy efficiency and carbon reduction initiatives on behalf of the Scottish and UK governments. A range of data from all assessments undertaken in Scotland is also published periodically by the Scottish Government. Further information on these matters and on Energy Performance Certificates in general, can be found at [www.gov.scot/epc](http://www.gov.scot/epc).

## Advice and support to improve this property

There is support available, which could help you carry out some of the improvements recommended for this property on page 3 and stop wasting energy and money. For more information, visit [greener-scotland.org](https://www.greener-scotland.org) or contact Home Energy Scotland on 0808 808 2282.

Home Energy Scotland's independent and expert advisors can offer free and impartial advice on all aspects of energy efficiency, renewable energy and more.

# PROPERTY QUESTIONNAIRE

---

The owner of the property is required to complete this document which asks for information on the property such as 'Which council tax band?' etc.

## Property Questionnaire

Property Address

Nether Auchlinsky Cottage

Dollar

FK14 7JX

Seller(s)

Lorna Snowie

Completion date of property questionnaire

Note for sellers

1.	<b>Length of ownership</b>
	<b>How long have you owned the property?</b> Aug 2015
2.	<b>Council tax</b>
	<b>Which Council Tax band is your property in? (Please circle)</b> <input type="checkbox"/> A <input type="checkbox"/> B <input type="checkbox"/> C <input type="checkbox"/> D <input type="checkbox"/> E <input type="checkbox"/> F <input checked="" type="checkbox"/> G <input type="checkbox"/> H
3.	<b>Parking</b>
	<b>What are the arrangements for parking at your property?</b> <b>(Please tick all that apply)</b>  Garage <input checked="" type="checkbox"/> Allocated parking space <input type="checkbox"/> Driveway <input checked="" type="checkbox"/> Shared parking <input type="checkbox"/> On street <input type="checkbox"/> Resident permit <input type="checkbox"/> Metered parking <input type="checkbox"/> Other (please specify): Large parking area

# property questionnaire

<b>4.</b>	<b>Conservation area</b>	
	Is your property in a designated Conservation Area (that is an area of special architectural or historical interest, the character or appearance of which it is desirable to preserve or enhance)?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> Don't know
<b>5.</b>	<b>Listed buildings</b>	
	Is your property a Listed Building, or contained within one (that is a building recognised and approved as being of special architectural or historical interest)?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO
<b>6.</b>	<b>Alterations/additions/extensions</b>	
a	(i) During your time in the property, have you carried out any structural alterations, additions or extensions (for example, provision of an extra bath/shower room, toilet, or bedroom)?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO
	If you have answered yes, please describe below the changes which you have made:	
	(ii) Did you obtain planning permission, building warrant, completion certificate and other consents for this work?	<input type="checkbox"/> YES <input type="checkbox"/> NO
	If you have answered yes, the relevant documents will be needed by the purchaser and you should give them to your solicitor as soon as possible for checking.	
	If you do not have the documents yourself, please note below who has these documents and your solicitor or estate agent will arrange to obtain them:
