## Description

A parcel of rough grassland extending to approximately 14.08 acres (5.69 Ha) (edged red on the plan).

The land previously has been used for arable farming and requires fencing to be installed to all boundries and likely needs reseeding.

There is an agreement with the neighbouring occupier to move the fence to provide sufficient access however we do not believe it will be sufficient to allow for arble farming to take place.

## Location and Situation

The land lies to the West of the village of Great Houghton, Northamptonshire and is approximately 2 miles outside of Northampton.

The land is accessed via Glebe Lane, which is a private road (shaded blue on the plan) owned by the landlord.

## Land Classification and Soil Type

The land is classified as grade 3 agricultural land (DEFRA).

Soilscapes describes the soil as Slightly acid loamy and clayey soils with impeded drainage (Soilscapes 8).

The land is offered to let on a Farm Business Tenancy or Common Law Tenancy from 19th June 2026.
