A truly unique opportunity to acquire a spacious three-bedroom detached bungalow occupying a generous corner plot in the popular village of Hibaldstow. Alongside the main residence is a substantial detached stone-built former garage/workshop of approximately 927 sq. ft., offering exciting development potential.

The stone building benefits from outline planning permission for the erection of a new dwelling, while its characterful existing structure may also lend itself to conversion, subject to obtaining the necessary planning permission and consents. This unusual proposition could appeal to developers, multi-generational families or buyers seeking extensive workshop, storage or business space alongside their home.

The bungalow itself offers well-proportioned and versatile accommodation extending to approximately 1,328 sq. ft. A rear entrance leads into the generous kitchen/breakfast room, fitted with an excellent range of contemporary high-gloss units, extensive work surfaces and integrated cooking appliances. There is also ample space for additional appliances and everyday dining.

The impressive lounge extends to approximately 24 feet in length and features a wide front-facing bay window, an attractive fireplace and ample space for a variety of seating arrangements. Glazed doors connect the lounge with the separate dining room, while the conservatory can be accessed directly from both rooms. This light-filled additional reception space overlooks and opens onto the garden.

All three bedrooms are well-proportioned doubles, with bedroom two benefiting from fitted wardrobes. A modern family bathroom features a spa-style bath with shower over, vanity wash hand basin and WC, while a separate shower room provides further convenience.

The property benefits from gas-powered warm-air underfloor heating, together with a separate gas boiler providing the domestic hot water. Owned solar panels offer a further energy-efficient feature.

Outside, the property occupies an established corner plot with gated access and extensive hardstanding providing generous off-road parking. The gardens are enclosed by a combination of walls, fencing and decorative wrought-iron railings, with lawned and block-paved areas offering plenty of space for seating and outdoor enjoyment. Four timber garden sheds provide excellent additional storage.

The substantial detached stone building is currently arranged as a workshop, garage and store and provides approximately 927 sq. ft. of additional accommodation. Full details of the outline planning permission are available upon request, and prospective purchasers should make their own enquiries regarding any proposed development or conversion.

Rarely does a property offering this level of versatility and development potential become available. Viewing is highly recommended to fully appreciate both the bungalow and the possibilities presented by the detached stone building.
