There is access to the A361 (Braunton Road) within 1 mile and from here there is easy access to the North Devon coast and its sandy beaches.

DESCRIPTION

The land totals approximately 6.34 acres (2.57 hectares) and comprises three grass fields and a modern style barn.

We understand that the barn was originally constructed in circa 1996 to provide stabling although it has been used for agricultural purposes by the current owner. The building measures approximately 16m x 7m, is of block construction with metal roof sheets and internally there is a concrete floor with some loose boxes and an open storage space. The roof sheets and timbers were replaced in 2023.

The grass land is level and is suitable for mowing and grazing with a former mill leat on the northern boundary and Bradiford Water on the southern boundary. The soils are described as being freely draining slightly acid loamy soils and is classified as grade 3a.

ACCESS

There is access to the land from the public highway over Hall's Mill Lane. There is a right of way over this lane to the land for all purposes and at all times.

SERVICES

No mains services are connected. There is a natural water supply from a spring which feeds three troughs and two taps.

TENURE

The land is owned freehold and is registered on the Land Registry. Vacant possession is available from the completion date.

METHOD OF SALE

The land is offered for sale by private treaty, as one lot.

DESIGNATIONS

The land is within the Bradiford Valley SSSI (Site of Special Scientific Interest) and is also within a Nitrate Vulnerable Zone (NVZ). The trees along Bradiford Water (southern boundary) are protected by a Tree Preservation Order (TPO Number 289).

A planning application to convert the barn to a residential dwelling was refused (reference 80363).
