Summary

This attractive and highly individual contemporary home was built by a local couple for their own occupation and as such it features an especially high quality of design as well as fit and finish.

In the local area new homes are often sold in pairs – that it is to say on sub-divided plots – but this is a true one for one replacement sitting on a large plot and with an impressive frontage to the road. The built form is sizeable and extends to over 3,400 square feet arranged over just two floors, another feature which is rare to find on a newly constructed home. On the first floor there are four extremely generous double bedrooms and three bathrooms. The principal bedroom is the most luxurious which benefits from a private sun balcony and a walk in closet. A stunning contemporary open tread staircase connects the reception hall and the ground floor where there is a hugely impressive 44' open plan lifestyle room with high ceilings and large format sliding patio doors connecting to the private sun terrace and level rear garden. The lifestyle room zones comfortably for contemporary kitchen complete with stone tops, a centre island and breakfast bar as well as informal dining and casual sitting. The additional sitting room is also an impressive size and an unusual feature is the utility room which could double up as a "work" kitchen.
