Maps
Coal Mining

MARTIN&CO

This map displays nearby coal mine entrances and their classifications.

Mine Entry

- Adit
- Gutter Pit
- Shaft

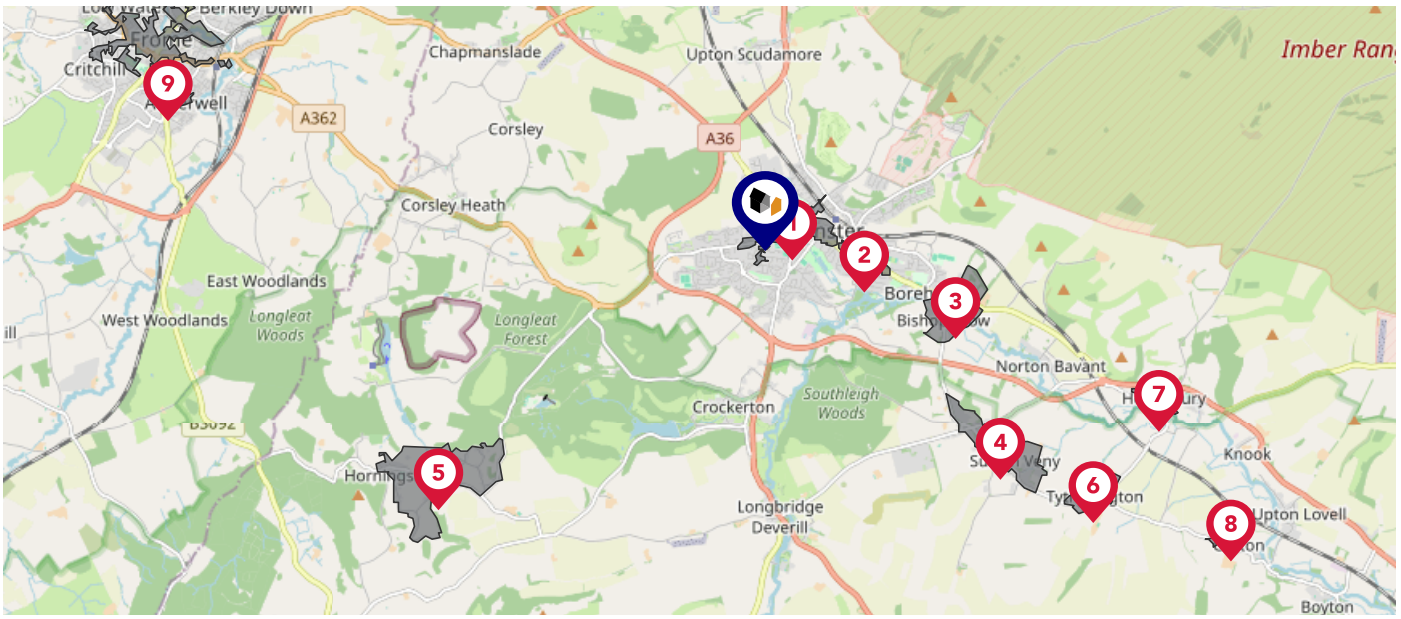

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Conservation Areas

MARTIN&CO

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

Nearby Conservation Areas

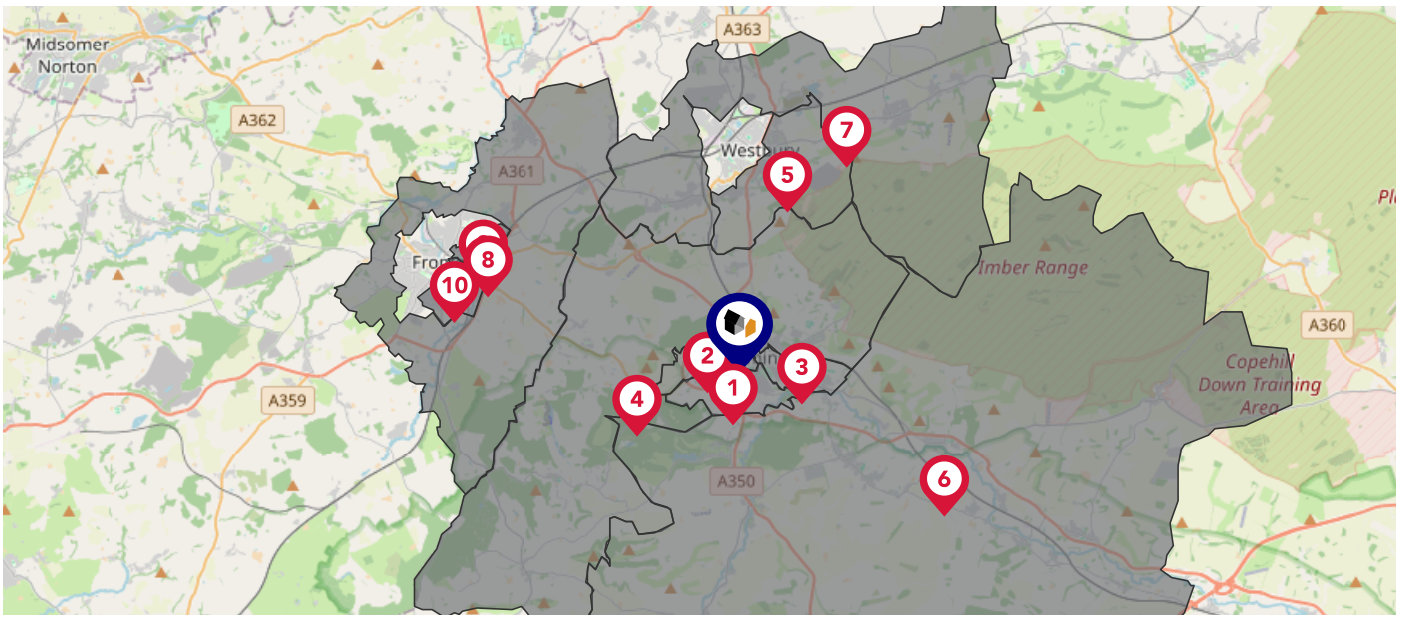

1	Warminster
2	Warminster, Boreham Road
3	Bishopstrow
4	Sutton Veny
5	Horningsham
6	Tytherington
7	Heytesbury
8	Corton
9	Frome

Maps
Council Wards

MARTIN&CO

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

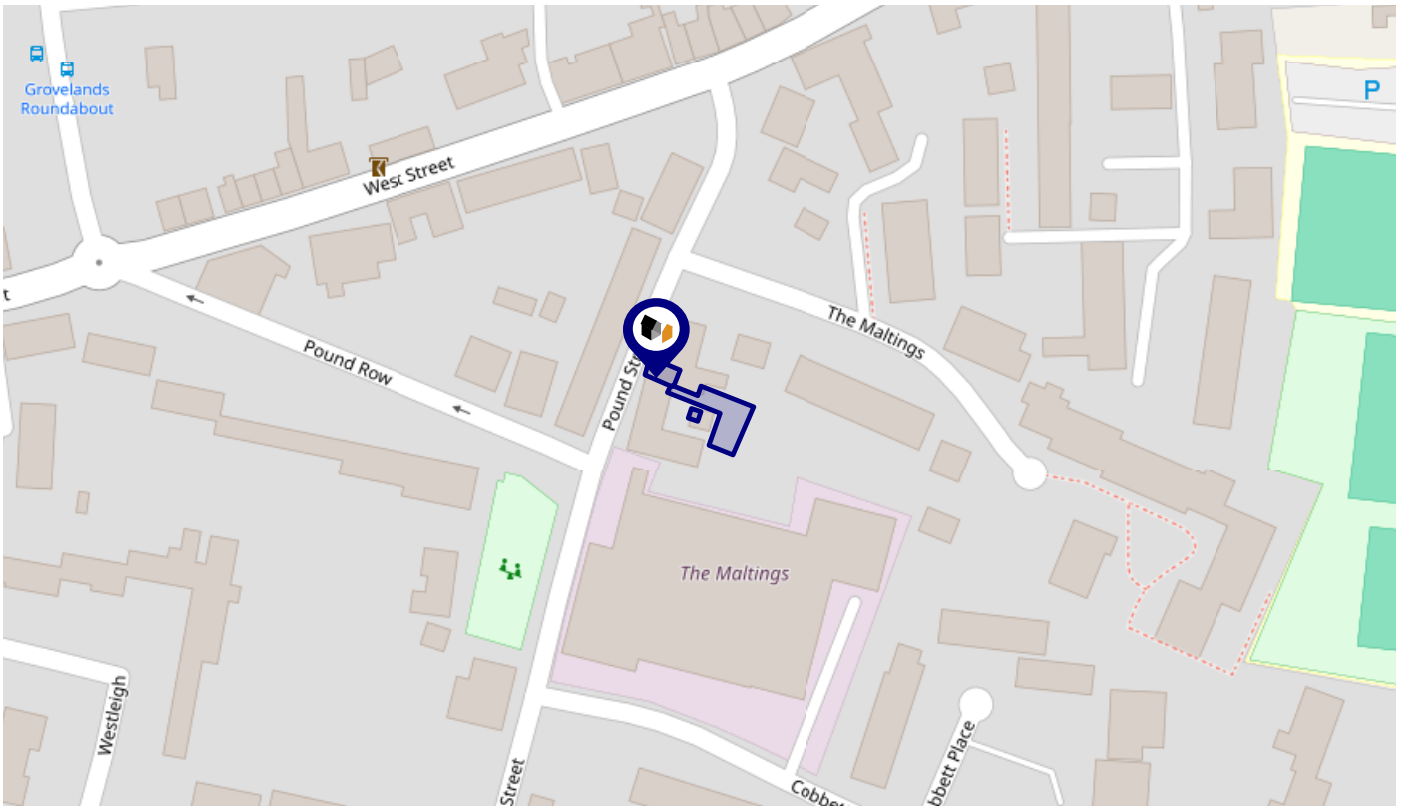

Nearby Council Wards

1	Warminster Broadway ED
2	Warminster West ED
3	Warminster East ED
4	Warminster North & Rural ED
5	Westbury East ED
6	Wylye Valley ED
7	Ethandune ED
8	Beckington and Selwood Ward
9	Frome Berkley Down Ward
10	Frome Keyford Ward

Maps
Rail Noise

MARTIN&CO

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

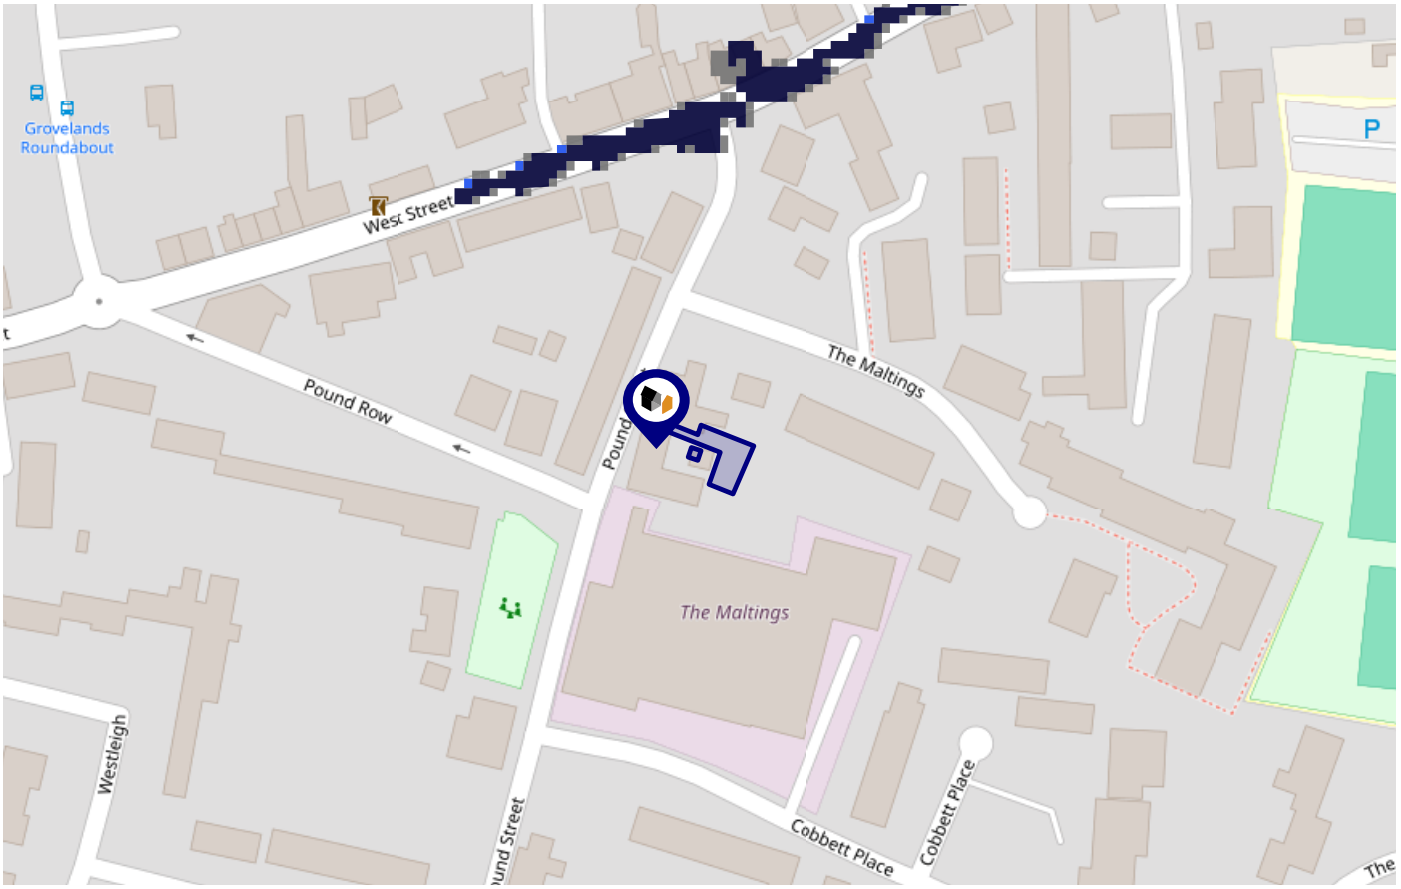

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

5	75.0+ dB
4	70.0-74.9 dB
3	65.0-69.9 dB
2	60.0-64.9 dB
1	55.0-59.9 dB

Flood Risk
Rivers & Seas - Flood Risk

MARTIN&CO

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

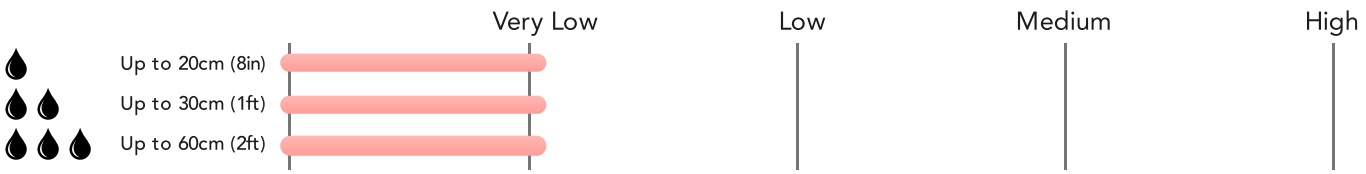

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- **High Risk -** an area which has a chance of flooding of greater than **1 in 30 (3.3%)** in any one year.
- **Medium Risk -** an area which has a chance of flooding of greater than **1 in 100 (1.0%)** in any one year.
- **Low Risk -** an area which has a chance of flooding of greater than **1 in 1000 (0.1%)** in any one year.
- **Very Low Risk -** an area in which the risk is below **1 in 1000 (0.1%)** in any one year.

Flood Risk
Rivers & Seas - Climate Change

MARTIN&CO

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

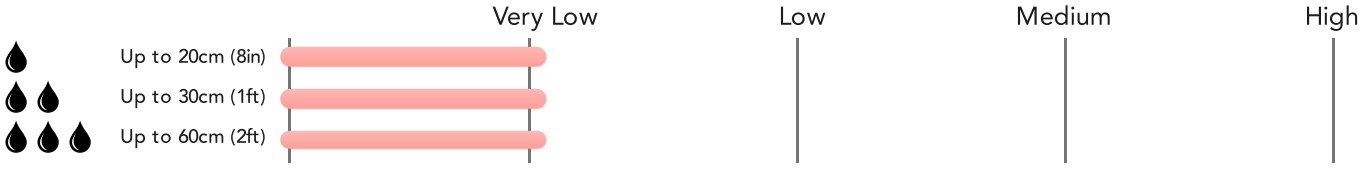

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- **High Risk -** an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- **Medium Risk -** an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.

Radon Gas

MARTIN&CO

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m3).

Martin & Co Westbury

Martin & Co are a multi-award-winning agency and what that means for you is that when you choose us, you know you'll be looked after by caring, honest and expert agents. Our 150-strong branch network forms part of a national family, and we have intimate local knowledge and a deep understanding of and connection with the community around us.

We have a wonderful and extensive selection of properties for sale in Westbury, Warminster, and Trowbridge and work closely with our Bath and Salisbury offices.

Martin & Co Westbury
Testimonials

MARTIN&CO

Testimonial 1

Everyone at Martin & Co was courteous and polite, and gave excellent professional support throughout the selling procedure. They hold regular meetings with the solicitors to keep things rolling along, and our sale went through in around 2 months!

Testimonial 2

A well equipped and professional agent for letting. The team communicate very well and are nothing if not honest. Expertise is very high and as a landlord who is not an oligarch well judged and fair. Based on my own experience this is an outstanding agent with great people very well set to serve needs of landlords and renters alike.

Testimonial 3

Kerri showed us around some of the available properties today, she was so kind and friendly, she made it such an enjoyable experience and was very knowledgeable too. Kerri was able to point us in the direction of further mortgage advice as first time buyers and also discussed other properties on the market that may be of interest in line with our budget, which was very helpful!
