The Property

Windmill Farm is a ring-fenced small holding situated in a quiet yet accessible location on the outskirts of Penponds village in mid-west Cornwall. A former dairy farm, the property offers approximately 16.87 acres of land set around a range of traditional and agricultural barns together with a three bedroom detached bungalow.

The Bungalow

The bungalow is well proportioned and has the potential to create a comfortable family home but is now in need of a scheme of refurbishment and improvement throughout. The accommodation comprises; entrance hall, sitting room with woodburning stove, kitchen/dining room with Rayburn, rear porch/utility and three large double bedrooms together with a bathroom. Surrounding the bungalow are small lawned gardens and there is a large store, though this is now in a state of disrepair.

A concrete screening (mundic) test was carried out in July 2026 and classified the property as A1 and therefore suitable for mortgage lending purposes. The report is available from the agents on request.

Barns, Buildings and Outhouses

Beyond the bungalow are a range of traditional and agricultural barns and buildings including two large timber agricultural barns, a concrete block built parlour, former piggeries (concrete block), concrete block tractor sheds and a Nissan hut.

It is possible that some of the barns/buildings may have potential for class Q conversion/planning permission and that the parlour could be considered suitable for conversion into ancillary accommodation (subject to planning consent).

Within the central yard is ample parking and turning space.

The Land

To the west of the barns and bungalow are three large, sloping field enclosures. All are in grass with mature tree lined boundaries with the exception of one boundary, along which the purchaser will be obliged to erect a stock proof fence within 6 months of completion (marked A and B on the land plan).

To the east of the barns and bungalow is a single, low lying field enclosure in the centre of which are a range of smaller concrete block barns and stables – all of which are now in a poor state of repair – but which nevertheless offer potential for shelters/stores/stables or perhaps even a dwelling (all subject to planning consent). This enclosure benefits from two vehicular gates, one from the lane to the north and one to the roadway to the east.

All of the land is classified as Grade III on the Land Classification Map.

Approximate Area = 1158 sq ft / 107.5 sq m (excludes field shelter)

Outbuildings = 8115 sq ft / 753.9 sq m

Total = 9273 sq ft / 861.4 sq m
