

Barnwell Lane, Cromford Matlock, DE4 3QY

This beautiful former farmhouse really does have it all. The main home includes four bedrooms and four bathrooms, together with a one bedroom annexe. Two driveways offer parking for 3 vehicles and there is a 1.5 garage-workshop and three barns which - subject to planning consent - could be converted to provide additional accommodation as a holiday let. Located on a quiet country lane within walking distance of the bustling centres of both Cromford and Wirksworth, the home is also very close to the High Peak Trail, with traffic-free walking and cycling routes all the way to Buxton and Ashbourne.

On the ground floor, the large kitchen-diner is the beating heart of the home, with doors off to the sitting room, snug and an inner hallway through to the utility room, a cool larder and WC. On the first floor are four bedrooms (three en-suite) and the family bathroom. The one bedroom annexe includes a kitchen, lounge and bedroom with shower and WC.

Neat lawned front and rear gardens are complemented by a pretty cottage garden with pond and seating/dining areas.

Cromford was the birthplace of the Industrial Revolution and is a World Heritage Site. As a result, for such a small village, it has a wealth of pubs, shops, eateries and the Mill complex includes some wonderful delicatessens, gift shops, museums and activities. There are walks aplenty in all directions including along the banks of Cromford Canal and the River Derwent, whilst the High Peak Trail at the top of Cromford Hill offers off-road trails all the way up to Buxton in the north and Ashbourne to the west. Carsington Water and the market towns of Matlock and Bakewell are also within a short drive.

Front of the home

A traditional dry stone wall forms the front border, with a beautiful yew tree arch in the centre. Enter the front garden through a decorative iron gate set within this arch and an original flagstone path leads to the front door and around both sides of the home. There are neat lawns each side of this path and this south-facing garden has plenty of space for seating and for children to play. The stone-built home has a tiled roof and there is a wall-mounted light beside the front door.

To the left of the home is a tarmac drive with space for two vehicles in front of the garage-workshop, with a door to an additional workshop area with lighting. Around the right-hand side is an additional parking space beside the path that runs down to the annexe and additional barns behind the home.

Kitchen-Diner

15'3" x 12'3" (4.65 x 3.75)

Enter through the composite stable door with brass handles and a letterbox. This is an impressive entrance to the home, with a high ceiling and light oak veneer floor. The large country-style kitchen has space in the centre for a six-seater dining table, plus American-style fridge-freezer on the far wall. The deep-set south facing window demonstrates the width of the outer walls. A long worktop has cabinets with open shelving above and lots of cabinets with iron handles below. At the far end, the L-shaped worktop has a large number of high and low level cabinets and - in the old fireplace - a double Whirlpool electric oven with four-ring gas hob and extractor fan above. The worktop includes a 1.5 stainless steel sink and drainer with chrome mixer tap and Hotpoint dishwasher below.

The room has recessed ceiling spotlights and a radiator. Pine doors with brass handles lead into the sitting room, snug and the inner hallway through to the utility room, larder and WC.

Sitting Room

15'1" x 11'5" (4.6 x 3.5)

From the kitchen, two steps lead down to the carpeted sitting room. This room occupies the former tractor shed and certainly feels that substantial. The room has a high beamed ceiling with two light fittings, a north facing window and fully-glazed double French doors out to the rear driveway, annexe, barns and rear garden.

The fireplace with tiled hearth and wooden surround houses a coal-effect gas fire and there is also a radiator.

With light oak veneer flooring, the hallway has a radiator and ceiling light fitting. Pine doors - some original - open into a cupboard, WC, larder and utility room.

WC

The useful ground floor WC has a ceramic tiled floor, ceiling light fitting and frosted double-glazed window. The ceramic WC has an integral flush and there is a ceramic pedestal sink with chrome taps. A worktop has two cabinets below.

Immediately outside is a cloakroom with carpeted floor. There is a radiator, ceiling light fitting and steps down to a former internal door to the annexe, which could easily be reinstated if you wanted to restore access.

A timber gate opens into this tranquil lawned garden, which has spectacular panoramic views. The stone wall of the barns forms the boundary on the left and there are modern timber fences on the other three sides.
