

WEMBLEY CONSTRUCTION GROUP PRESENTS

Contemporary homes, elevated living.

High-end apartments, private balconies, 24/7 concierge and underground parking.

COMPLETION

Q3 2029

WELCOME

A new collection of contemporary homes

Wembley Construction Group proudly presents its newest residential development, an impressive collection of contemporary homes designed to combine refined interiors, exceptional resident amenities and the convenience of modern urban living. With completion anticipated in Q3 2029, this is an exciting opportunity for buyers seeking a high-quality residence that puts comfort, security and lifestyle first.

AT A GLANCE

High-end apartment specification	A private balcony in every home	Fantastic views	24/7 security and concierge	Underground parking

THE RESIDENCES

Quality in every detail

Each apartment has been thoughtfully designed with high-end specifications, reflecting a real commitment to quality throughout. Contemporary finishes, carefully selected materials and well-considered layouts create sophisticated spaces that balance visual appeal with everyday practicality. From relaxing after a busy day to entertaining friends and family, every residence is designed to feel welcoming and suit modern life, with premium specification a defining feature of each individual home.

VIEWS AND BALCONIES

Step outside and take it all in

One of the development's standout attractions is the fantastic views from the residences. Whether it's the changing scenery through the day or unwinding in the evening, residents get an elevated perspective of their surroundings from the comfort of home. Every apartment also has its own private balcony, giving you valuable outdoor space for morning coffee, quiet relaxation or entertaining guests. That easy connection between indoor and outdoor living makes each home feel more open and inviting.

AMENITIES

Convenience and peace of mind, built in

24-hour security and concierge

A dedicated 24-hour security and concierge service gives residents round-the-clock support and keeps the building secure and well managed. From deliveries and general enquiries to that extra bit of reassurance, it brings real convenience to daily life.

Underground parking

Residents have access to designated underground parking, taking the hassle out of finding a space in busy urban surroundings. Keeping vehicles beneath the development also makes for a more organised, streamlined setting above ground.

SECURE YOUR NEW HOME

Completion anticipated Q3 2029

Wembley Construction Group's latest project is a chance to secure a contemporary home in a development built around quality, comfort and convenience. With high-end specifications, a private balcony in every apartment, fantastic views, underground parking and 24/7 security and concierge, it's a compelling proposition for buyers after a modern home with premium features. An opportunity well worth exploring.
