THE LAND

The land, in total, extends to around 437.34 ac (176.99 ha) and is provisionally classified as Grade 2 and 3 by DEFRA. About 382.46 acres are in arable rotation and about 45.17 acres of permanent grassland and useful horse grazing, all of which is undulating and lying about 70m to 125m above sea level.

The soils of the arable land are identified on the National Soil Map as being mainly freely draining acid loamy soils suited to arable and grassland production. Field enclosures are well fenced with good access. Some areas are more seasonally wet, with slowly permeable acid loamy and clayey soils more suitable to permanent grazing. The land is generally in good heart and is well managed under a Contract Farming Agreement with vacant possession expected on completion.

There are two annual commercial horse grazing licences in place across Lot 1 (due to expire 30th September 2026) and Lot 3 (due to expire 31st March 2027). Further information regarding the licences are available from the Selling Agents.

FARM BUILDINGS

The farm buildings are situated to the north-west of Lot 1 and are accessed via the main farm track directly from the A183 Chester Road. The yard comprises a well-configured array of secure agricultural buildings arranged around extensive areas of hardstanding and a small area of concrete which provide excellent vehicle circulation, loading space and external storage areas.

PLANNING APPROVALS & OPPORTUNITIES

The farm lies within a Green Belt Area. Planning approval was, however, granted in 2004 to build an equestrian livery yard with an outdoor arena, two buildings each incorporating 16 loose boxes and associated car parking (Ref: 04/01008/SUB). The existing buildings provide an opportunity for change of use, subject to consent.

SUBSIDIES & PAYMENT SCHEMES

The farm is currently entered into a Countryside Stewardship Mid-Tier Agreement, which runs until 31st December 2026. Environmental measures include legume fallow, flower-rich margins and nectar plots, delivering both environmental and farming benefits. The purchaser will be required to assume the agreement or indemnify the Seller against any repayments arising from early termination of the scheme. The land is also entered into a Sustainable Farming Incentive (SFI) agreement expiring on 30th April 2027. Should the sale complete before the Vendor has submitted the final annual declaration, the Rural Payments Agency may seek recovery of the final year's SFI payment. In such circumstances, the purchaser will indemnify the Seller against any resulting repayment. The SFI agreement cannot be transferred to a new occupier or owner.

Further details are available from the Selling Agents.
