## **Description**

Set back from the road, Red Robins is an exceptional detached family home that has been extended by the current owners in recent years. It now offers over 2,100 square feet of bright and airy living space, along with a garden that measures over 190 feet—this is a property not to be missed!

This deceptively spacious home is partly hidden from view by a high, mature hedge and is accessed through a set of gates. The expansive driveway can comfortably accommodate five or six vehicles and that's not including the space inside the garage! Upon entering the storm porch, you are welcomed into an entrance hallway that divides the first two bay-fronted double bedrooms.

On the ground floor, a luxurious tiled bathroom features a hidden walk-in shower and a freestanding statement bathtub, whilst a separate W/C is located next door. The property then opens up to a vast area created by two extensions. The kitchen, benefiting from under-floor heating beneath the slate tiles, boasts cream high-gloss units surrounding a focal range-style cooker. A handy utility room provides additional counter & worktop space and conceals essential white goods.

Natural light flows into the dining and family space, which feature vaulted ceilings, and leads to the living area. Here, a spectacular set of sliding bi-fold doors offers a stunning view of the long and private garden.

Stairs ascend to the first floor, where you will find the principal bedroom and an ensuite shower room. Measuring an impressive 19'7" x 17'3", this spacious bedroom is flanked on both sides by useful eaves storage and includes two additional dormers at the front, enhancing the light and airy feel of the entire property.

Outside, the garden remains plentiful, largely unaffected by the previous extensions, and still measures in excess of 190 feet. The garden features distinct areas, including a wide patio off the living room for al fresco dining, a greenhouse, netted growing beds, and a hardstanding currently occupied by an above-ground pool along with its pumping and filtering units. Additionally, there are three timber outbuildings used as a home office, workshop, and tool shed.

In our opinion, sizable properties like this, with expansive gardens, generate significant interest. So be sure to secure your internal viewing as soon as possible!
