Solar Panels

The property benefits from the installation of solar photovoltaic (PV) panels under a roof-space lease agreement with ****A Shade Greener****, whereby the company rents the roof space and retains ownership and responsibility for the solar panel system. The current vendor benefits from reduced electricity costs through the use of the energy generated by the panels. Such arrangements are common and are generally acceptable to many mortgage lenders, subject to the lease meeting lender requirements and legal review. The terms of the roof-space lease agreement will be made available during the conveyancing process, and purchasers are advised to have their solicitor review the documentation in full.
