Interior

A deceptively spacious home that flows beautifully as one level living with a private lower floor for a family member or guests, or a generous sized family home over two levels.

Very well presented and neutrally decorated throughout, this home has very versatile accommodation and has daylight flooding in through the large windows and patio doors.

Ground Floor:

The glazed porch has a convenient and discreet log store with lid, this opens into the bright hallway with a useful storage cupboard. This area has the stairway leading down to the lower floor and also flows straight through to rear of the property and the balcony.

All three good sized double bedrooms have either an array of sliding wardrobes or built in cupboards with the principal bedroom having an ensuite shower room and double French doors opening onto the balcony.

The family bathroom is half tiled and has a deep bath tub, basin and wc.

The generously sized sitting/dining room is triple aspect with a brick feature fireplace containing a woodburner. This L shaped room has a rear bay window with a bespoke sitting area that has storage beneath, where you can sit and enjoy the beautiful views over the countryside.

The kitchen is accessed from both ends, from the dining area and from the utility room which has storage cupboards that also house the boiler, hot water cylinder and airing cupboard. This space also has a larder and space/plumbing for a washing machine as well as a door to the balcony. The long airy kitchen has wooden wall and base units, a range oven with 7 gas rings and 3 electric ovens, space for a large American style fridge/freezer, wine rack and an integrated dishwasher.

Lower Ground Floor:

This level can be reached from the staircase or directly from outside, giving the flexibility to make this a self contained area. There is a utility room with sink and multiple storage cupboards that gives access either way to a family/hobby room or office and in the opposite direction a shower room and either a bedroom or reception room.

Exterior

Set back off the road, it has immediate parking for four vehicles with the driveway flowing onto further parking not only at the rear of the house but onwards through a gate down towards the large garage/workshop. In this tranquil rear garden, that has been lovingly cared for, there is everything you could need for a small holding including a poly tunnel, fruit trees, chicken coops, a paddock and small stable - ideal for a pony, many outbuildings and garden stores and water tanks. In the more formal area of these extensive grounds there is a large fish pond with pump and a new filter, a designated seating area, a summer house that has electric power and all situated within well kept lawns and flower beds. The most wonderful place to relax and enjoy the peace and quiet. There is an undercroft formed from the balcony across the width of the rear of the house which gives a sheltered area to sit, as well as giving access to the lower part of the building and to an internal store with electrics and light. The front gardens include another pond with a waterfall, mature plants and trees and has a pathway leading to the main entrance door.
