DESCRIPTION

Mayfield Cottage comprises a charming, detached period village house, which presents painted rendered elevations with double glazed windows – which have ornamental shutters to the front – all below a slate roof. The property is reputed to originally date back to 1746 and remarkably perhaps it is not listed. The cottage is presented to a high standard – both inside and out – and has been tastefully modernised to combine 21st Century refinements with original features. The accommodation is arranged over two storeys and is not unlike the TARDIS, being a lot bigger internally than would appear externally. This includes three ensuite bedrooms – one of which is on the Ground Floor, ideal for those unable to manage stairs and for futureproofing. This room has been previously used on a B'n'B basis. The house is complemented by well-tended gardens. There is a detached garage/workshop, adjoining car port and ample parking, including space for a motorhome.
