Testimonials

COOPER
AND
TANNER

Testimonial 1

We predominately dealt with Shelly at the Frome branch through the process of buying and selling our house. Over the last 18 months Shelly has been pretty much the only agent in town who has bothered to keep me up to date with what was coming on the market etc. Not only did we sell through C&T but when it came to purchasing (also through them) they really worked hard to make the deal work for everyone. A very positive experience.

Testimonial 2

Cooper and Tanner in Frome were highly recommended to us – and we are delighted that we listened! We have found them to be experts in their field with excellent local knowledge and a very clear understanding of the market. Adam and his team have been professional, helpful and supportive throughout the process – far above and beyond the call of duty - and a real pleasure to deal with.

Testimonial 3

In the last 2 years or so we have bought twice and sold once with Cooper and Tanner in Frome. Adam Scott and his entire team have been really great throughout. All three transaction had complications that needed to be sorted out, especially the last one that took 6 months to complete with many twists and turns. Adam has been so patient and energetic and on the ball, on top of the situation throughout. He builds a great rapport with both buyer and seller.

Testimonial 4

We had a sale agreed on our property early in 2023 after only being available for a few days. Throughout the selling process Cooper & Tanner in Frome were consistently helpful and supportive. Furthermore, they demonstrated that they had a very clear understanding of the market. They were a pleasure to deal with and in particular, Adam Scott (Branch Manager) & Ross Bowers (Senior Negotiator) were always on hand if we had any problems or worries.

Flood Risk

Surface Water - Flood Risk

COOPER
AND
TANNER

This map shows the chance of flooding where rainwater has nowhere to drain. This kind of flooding can occur far from rivers or seas.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- Very Low Risk** - an area in which the risk is below 1 in 1000 (0.1%) in any one year.

Chance of flooding to the following depths at this property:

Flood Risk

Surface Water - Climate Change

COOPER
AND
TANNER

This map shows the future chance of flooding **between 2040 and 2060** where rainwater has nowhere to drain. This kind of flooding can occur far from rivers or seas. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than **1 in 30 (3.3%)** in any one year.

Maps Coal Mining

COOPER
AND
TANNER

This map displays nearby coal mine entrances and their classifications.

Mine Entry

- ✖ Adit
- ✖ Gutter Pit
- ✖ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Maps

Council Wards

COOPER
AND
TANNER

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

Nearby Council Wards

- 1 Frome Market Ward
- 2 Frome Oakfield Ward
- 3 Frome Keyford Ward
- 4 Frome Park Ward
- 5 Frome College Ward
- 6 Frome Berkley Down Ward
- 7 Beckington and Selwood Ward
- 8 Ammerdown Ward
- 9 Rode and Norton St. Philip Ward
- 10 Warminster North & Rural ED

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m³).
