HAYESCROFT, DIDSBURY

The award-winning developers PH Homes created the gold standard when they built this stunning scheme of seventeen homes within 7.7 acres of private grounds. The location within the fashionable village of Didsbury with its many fine boutiques, outstanding eateries and many festivals, underscores just why it is one of the most sought-after places to live in the North West. It also helps that it is such a well-connected location with the Metrolink service, East Didsbury train station, the motorway, international airport as well as Manchester city centre all so accessible.

Within the scheme is a one off five bedroom detached home with double garage, pretty as a picture and appropriately called The Lowry, it provides superb family accommodation with three reception rooms and three bathrooms, offered with underfloor heating to the ground floor. On the ground floor the substantial kitchen dining family room offers two sets of sliding folding doors opening onto the garden. The kitchen is finished in a deep gloss with handle-less units, beautiful detailed and incorporating luxurious Corian worktops whilst Neff appliances in brushed stainless steel compliment it perfectly. Adjacent in an open plan format, is the family room.

Upstairs the first floor is dominated by a stunning principle suite with spacious bedroom incorporating a dressing room and luxurious ensuite bathroom. The spaciousness of this floor is extraordinary with four further double bedrooms, one of these also being ensuite along with a beautifully appointed family bathroom. Outside to the rear is a fully enclosed landscaped garden.

The home is so aesthetically pleasing with stone detailing to the windows but just as importantly is the commitment to the Code for Substantial Homes, a national standard for design and construction above current minimum standards set by the building regulations. In this sense there is a dramatic reduction in the energy required to heat your home whilst Smart technology enables you to monitor the usage. Further peace of mind is the UK Police Flagship that is embraced within this scheme effectively known as 'designing out crime' it has been faithfully adopted, so there is a comprehensive alarm security system, security lighting, passive infrared sensors, and security rated locking systems to the main door. Designed to reduce crime risk by 75% it provides amongst the best you could wish for in defensible space. CCTV and security flood lights have also been added by the vendor

The property is only 8 years old and comes with the residue of a 10 year warranty provided by Premier Guarantee - 2 years remain. Altogether a home of style and sophistication by a company who have gained an appreciative audience so, now is the opportunity for a discerning purchaser to begin a dramatic new lifestyle.
