Murrays Mills

Originally commissioned by the Murray brothers in 1797, the development began with the construction of Old Mill and Decker Mill, with New Mill following shortly afterwards. The buildings were later interconnected by a series of linking wings, many of which still remain today alongside the original engine houses and iconic chimney, preserving the site's rich industrial heritage.

Set in the heart of Ancoats, Murrays' Mills is a beautifully executed conversion combining Grade II and Grade II* listed buildings with a contemporary new-build block and an impressive townhouse. Apartment 87 is situated within the historic New Mill building, offering character and charm in one of Manchester's most celebrated residential developments.

Residents benefit from a 24-hour concierge service, CCTV throughout the development, and secure gated access to the expansive communal courtyard. Exclusively reserved for owner occupiers, Murrays' Mills has cultivated a genuine sense of community that sets it apart from many other developments in Manchester.
