#### **Inside the Property**

Step into a home that feels instantly calm and contemporary. Every inch of this two-bedroom bungalow has been thoughtfully modernised, from the crisp white walls and soft greys to the bold pops of colour that bring the space to life.

At the heart of the home, the living room is airy and inviting, with natural light pouring in through wide windows. A statement panelling feature around the chimney breast adds warmth and character, while raised plug points make it easy to wall-mount a TV for that clean, uncluttered look.

The kitchen is both stylish and functional, a smart use of space with gloss-grey cabinetry, integrated appliances (including oven, hob, dishwasher and fridge), and wood effect click-vinyl flooring underfoot. The wide window above the sink invites in views of the outside while you cook.

The bathroom has a spa-like feel, with a glass walk-in shower, sleek fittings, and a rainfall monsoon head, everything you need for a refreshing start or relaxing wind-down.
