Situated within a secure gated compound in a convenient Littlehampton location, this is a rare opportunity to acquire a portfolio of seventeen lock up garages, all offered for sale as a single lot.

The garages are arranged within a well established compound, providing secure and easily accessible vehicle parking or storage. Their layout and location make them suitable for a range of uses, including private parking, storage or investment purposes, subject to any necessary permissions.

The portfolio presents an attractive opportunity for investors, with each garage having the potential to generate a rental income of approximately £95 per calendar month, subject to market conditions and individual letting arrangements. Purchasers should satisfy themselves as to achievable rental values.

Conveniently positioned within Littlehampton, the compound benefits from good access to surrounding residential areas and the wider road

network, making it well placed to appeal to local residents, businesses and those seeking additional storage or parking facilities.

Opportunities to purchase a garage compound of this size are seldom available, making this an excellent addition to an investment portfolio with the potential to provide a regular rental income and long term asset growth.
