Dorchester

A home to make your own

Bedrooms: 3

Bathrooms: 1

Receptions: 1

Every home has a story, and sometimes the loveliest part is the chance to write the next chapter.

For anyone who enjoys a little project and isn't afraid to pick up a paintbrush, this three-bedroom semi-detached house in the popular village of Crossways offers the opportunity to roll up your sleeves, get creative and make a home truly your own.

Perhaps this is the perfect excuse for a winter spent hibernating indoors, choosing colours, refreshing rooms and planning those little touches that make all the difference, ready to emerge in spring with a home that feels wonderfully renewed.

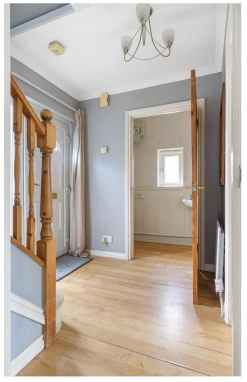

Inside, the ground floor offers a kitchen, a lounge/diner and a useful cloakroom, with three bedrooms and a family bathroom upstairs.

Outside, there's a good-sized garden to enjoy in the warmer months, together with a garage and allocated carport parking.

With good bones, plenty of potential and a little imagination, this is a home waiting for someone to fall in love with the possibilities and bring it back to life.
