**GOODMAN  
& LILLEY**

## Description

The ground floor enjoys a light, free-flowing layout, with a contemporary kitchen/dining space opening into the living area. Sleek units, integrated appliances, and ample worktops make the kitchen both practical and attractive, while bi-folding doors connect the living space seamlessly to the rear garden. A downstairs WC completes this level.

Upstairs, the principal bedroom benefits from a modern en suite shower room, while two further bedrooms share a family bathroom finished with contemporary fittings and quality tiling. Each room feels bright and airy, with elevated views across Bristol to the front and woodland to the rear.

Sustainability is at the heart of the design, with integrated solar panels, a German-manufactured air source heat pump, underfloor heating to the ground floor and bathrooms, high-performance glazing, and an electric vehicle charging point to the front.

The rear garden is designed for easy maintenance and provides a private outdoor retreat
