LOCATION

The property is situated between Park Road and Graham Street, close to Ilkeston town centre. With an extensive frontage and car parking off Park Road. The area would be considered a mixed-use trading location, with neighbouring sites on Park Road put to offices/trade counter users, with residential properties off both Park Road and Graham Street. The position is within walking distance of Ilkeston town centre, and road communications are good, with ease of access to Nottingham Road and Chalons Way.

DESCRIPTION

The original part of the property is of some age, and is a former mill-style building fronting Graham Street. The building is planned over two floors, and of traditional 9" brick construction under a pitched tileclad roof. The building was extended towards Park Road, with a single-storey addition of brick construction with substantial blue-brick supporting columns, under a flat roof.

The building was subsequently converted to provide warehouse and trade counter space, most recently used by Interhire Power Tools, with a trade counter to the front, and warehousing to the rear. The trade counter has external security shutters, the warehouse has concrete floor, LED lighting, eaves of 3.24m, and roller shutter service access door to the side.

To the rear are the two-storey mill buildings, converted to provide storage and amenity space to the ground floor, and offices to the first floor. Adjacent is a secure compound, with a brick built garage. Externally, there is a generous car parking area to the front and sides.

In our opinion, the site would accommodate a variety of uses, and also offers the potential for refurbishment, and redevelopment, subject to obtaining the necessary planning approvals.

PLANNING

We have been unable to obtain clarification on the Use Class from Erewash Borough Council. However, we believe the existing use consent is E commercial business & service use, as defined by the Town & Country Planning (Use Classes) Order 1987, (Amended) (England) Regulations 2020.

It is our opinion that the site offers potential for redevelopment, or for alternative use, and would recommend interested parties make their own enquiries with the local planning authority.
