3,261 SQ FT | FIVE BEDROOMS | THREE FLOORS | MOMENTS FROM SUTTON PARK

Some moves are about needing another bedroom. Others are about wanting something that feels like a proper step up. Thornhill Park is the latter.

Completely remodelled by the current owners, this incredible 3,261 sq ft family home offers five bedrooms across three floors, a huge open plan kitchen diner, separate living room, office, home bar and one of the best principal suites I've seen for a while.

Outside, a huge in and out driveway gives the house the arrival it deserves, while Sutton Park is practically at the end of the road and excellent local schools are close by.

Modern, spacious and ready to move into, this is a statement family home in one of Streetly's most exclusive locations.
