Description: Little Plat is a welcoming attached Grade II listed Arts and Crafts style house that we believe was originally constructed around 1906 and then later extended at the rear in the 1950's. The property is of traditional brick and timber frame construction, with ground floor painted brick, and first floor part tile clad and part weatherboard elevations, with timber casement windows with tracery beneath a pitched tiled roof.

The property is situated on German Street in a prominent position in the conservation area of the Ancient Cinque Ports town of Winchelsea overlooking the central St Thomas the Martyr church. The property is within walking distance of all Winchelsea amenities including shop, primary school, pub, cricket club, and village hall.

The property is approached from German Street through a wrought iron metal picket gate leading down a paved side garden leading to the main entrance door. A part glazed entrance door with a projecting canopy above, opens into an entrance hall with herringbone block flooring and access to a ground floor cloakroom with matchboard panelling to dado height, quarry tiled floor, close coupled WC and wall mounted wash basin. An inner door leads into the main hallway again with parquet flooring with turned staircase to galleried landing above and benefiting from 2 large storage cupboards. Accessed from the hallway is the main rear facing triple aspect living room, which has large bay windows overlooking the side courtyard and rear garden with window seat, glazed access door out to the garden and a central recessed fireplace with large woodburning stove, tiled hearth and decorative pine outer surround, wall panelling, and exposed stripped pine floorboards.

A square shaped dining room is also accessed from the hallway with double aspect windows including bay window overlooking the courtyard and a decorative moulded arch display recess.

The kitchen/breakfast room is next to the dining room with terracotta tiled floor with fitted hand-crafted shaker cream base cupboards and drawers beneath granite work surfaces with an inset 5 ring gas hob with extractor hood above, built in electric oven, integrated dishwasher, inset sink with mixer tap, space for fridge/freezer and washing machine. A walk-in shelved pantry is accessed from the kitchen while on the opposite wall is a part glazed door that leads to a large integral garage that is also accessed from the main hallway. The integral garage has full height timber double doors to the front with a matching door to one side, at the rear of the garage is a porcelain fitted sink and a walk in storage cupboard housing the gas boiler. A part glazed door at the rear of the garage opens into a small inner courtyard with a door and steps that lead down to the cellar.

A central staircase leads from the hallway up to a spacious landing with a central stairwell, Arts and Crafts balustrade and a large skylight above. At the rear of the house is the double aspect master bedroom with large square bay windows overlooking side and rear gardens and moulded cornicing. A dressing room with built in hanging rails and side window is accessed off the master bedroom along with an ensuite bathroom with white fittings comprising a panelled bath, corner boxed in cistern WC, walk in shower, and washbasin with built in vanity cupboard below, two heated towel rails and tiled floor. A further three double bedrooms are also accessed from the landing with Bedroom 2 benefiting from front facing Venetian window overlooking the church to front and a further skylight side window. Bedroom 3 benefits from a rear facing window and a range of built in wardrobe cupboards and Bedroom 4 / study also enjoys a front facing window and a further tall oriel window overlooking the church to the front of property, along with being fitted with wall bookcases. Also accessed from the landing is a fully tiled family shower room with walk-in shower cubicle and a wall mounted wash basin. Adjacent to this is a separate WC and wall mounted washbasin, and access to a large eaves storage cupboard.

Externally to the southern side aspect of the house is a paved courtyard garden accessed from German Street with lavender beds and two murals depicting angelic scenes either side of the living room bay window painted by Charlotte Lawrenson.

Within the courtyard is an attractive brick constructed studio / workshop with pitched slate tiled roof that enjoys a central entrance door with triple aspect windows including glazed side door. At the end of the courtyard garden is a gate set into a yew arch that opens through to the walled rear garden, with lawn garden with a central paved pathway, mixed flower beds, herbaceous borders and a greenhouse to the side. At the end of the paved path a further arched gate leads into a second walled garden that has been planted as a "White garden" with raised beds and borders.
