RENT TO BUY AND SHARED OWNERSHIP EXPLAINED

What is Rent to Buy?

Rent to Buy is a government scheme designed to help you transition from renting a property, to buying a home.

You'll commit to rent a new build property for a set length of time (normally five years) and will have the opportunity to purchase it before your tenancy ends.

With more affordable rent (around 20% less than the market price) you will be able to save towards a deposit and buy the home that you are in through Shared Ownership and may also be able to purchase your home outright.

What is Shared Ownership?

Shared Ownership is a scheme that will enable you to buy a share of your home – meaning a smaller mortgage and a reduced deposit.

Initially, shares will be available from 10% to 75% of the property value, depending on affordability.

After your first share purchase, you can then either gradually increase your shares over time (this is called staircasing) or purchase the remaining shares outright.
