

Gallamore Gardens

Gallamore Road

MOUNT & MINSTER

INTRODUCTION

An elegant home that successfully blends sophistication and contemporary efficiency to create a wonderful residence that is cheap to run and premium to live in. These stunning two bedroom bungalows are built and will be available from November 2026.

Gallamore Gardens is an exclusive development of thoughtfully designed new homes, ranging from one to four bedroom bungalows. The collection has been carefully conceived to combine contemporary architecture with practical, well-proportioned accommodation, creating homes suited to a variety of lifestyles.

Each property is constructed using carefully selected materials, with an emphasis on quality, durability and finish. Interiors are equally considered, with fixtures and fittings chosen to complement the clean architectural lines and contemporary character of the development. Double-glazed windows are fitted throughout, while generous glazing and thoughtfully positioned living spaces allow natural light to form an integral part of each home.

Particular attention has been given to the relationship between individual rooms and the wider living environment. Open-plan spaces are designed to flow naturally, with well-balanced proportions and a strong connection between internal accommodation and private outdoor areas. The result is a collection of homes that feel both refined and comfortable, with quality evident throughout.

Energy efficiency has been an important consideration in the design and construction of this premium community of bungalows, with each home created to meet the demands of modern living while helping to reduce unnecessary energy consumption and running costs.

High levels of insulation, double glazing and modern heating systems contribute towards a comfortable internal environment throughout the year. The homes have also been designed to maximise natural daylight, helping to create bright and welcoming interiors while reducing reliance on artificial lighting.

Contemporary kitchens incorporate integrated appliances, while the wider specification reflects modern building standards and a considered approach to efficiency. Together, these features provide homes designed not only for immediate comfort and convenience, but also with long-term practicality and sustainability in mind.

Gallamore Gardens has been designed to create a distinctive and well-planned residential setting rather than simply a collection of new properties. The single-storey character of the development, combined with carefully arranged streets and thoughtfully designed homes, creates a strong sense of cohesion and place.

Combining high standards of construction, contemporary interiors and energy-conscious design, Gallamore Gardens offers an appealing opportunity for buyers seeking a modern home in Market Rasen. The emphasis throughout is on quality, comfort and longevity, creating homes intended to be enjoyed for many years to come.

OUTSIDE

These splendid homes enjoy a paved driveway to the front, with a small garden to the front, complemented by a larger lawn to the rear with side access and a paved patio providing an ideal space for outdoor eating and entertaining.
