Beautifully kept private rear garden with large, grassed area, composite decking off the kitchen, established and raised borders. Solar panels located on the roof.

Agent Notes

It is worthy of note that the annexe has it's own front and rear entrances, with the main hallway being partitioned and doorway to the house that divides the two properties for privacy. The two are linked internally for use as a single dwelling. The solar panels service the hot water tank in the main house, the annexe has it's own central heating, combi boiler and electric box. There is double glazing throughout.

Consideration should also be given to the fact that the property could easily be used as a house with a separate annexe making it perfect for a large multigenerational family or those looking to use the annexe as a potential short or long term rental.
