Lot 2 – 6.08 acres (2.46 hectares) comprising agricultural land with a range of farm buildings to include Class Q approval for six dwellings

Guide Price £475,000

A mix of traditional and modern farm buildings, with a combined gross external floor area (measurements taken from an Ordnance Survey digital mapping system) of approximately 22,000 ft² (2,040 m²) together with adjoining farm land.

The farmland is mainly a single parcel of pasture that sits between the farm buildings, the main road and existing residential development.

The buildings include a grain store, livestock and general storage buildings and a significant concrete yard. The buildings are currently in agricultural use, but there is in place a General Permitted Development Order Class Q to create six dwellings from three of the existing buildings. The approval was granted in March 2026. Go to the below link for further details –

Planning application: M/26/00071/GPDQ - Malvern Hills District Council

There is an active planning application with Malvern Hills District Council for the creation of six new build houses, two of which would be affordable homes. This would, if approved and implemented, replace the Class Q approval. A decision is pending. Again, go to the below link for further details.

Planning application: M/26/01124/OUT - Malvern Hills District Council

The current approval, and hopefully soon the further approval, demonstrates that the site can be used for residential development. It might also be used for a commercial development / change of use (subject to planning approval), or there is equal value in the site for it to continue to be used for agriculture, whether in support of Lot 1 or not.

Rights of Way

There are no public rights of way over Lot 2. Please note that the owners of The Moor Farmhouse, have a right of way across part of the property for access across to their home.

Overage/Uplift Clause

An Overage/Uplift Clause, to remain in place for 35 years, is to be applied to all of Lot 2. The uplift will entitle the vendor to 35% of the uplift in value following a change of use to commercial or residential – but not agricultural development.

Services

Mains electricity and water are connected to the property.
