Important Notice:

This report has been prepared for the purposes and use of the person named on the report. In order to ensure that you have sight of a current and up to date copy of the Home Report it is **essential** that you log onto www.onesurvey.org (free of charge) to download a copy personalised in your own name. This enables both Onesurvey and the Surveyor to verify that you have indeed had sight of the appropriate copy of the Home Report prior to your purchasing decision. This personalised report can then be presented to your legal and financial advisers to aid in the completion of your transaction. **Failure to obtain a personalised copy may prevent the surveyor having any legal liability to you as they will be unable to determine that you have relied on this report prior to making an offer to purchase.**

Neither the whole, nor any part of this report may be included in any published document, circular or statement, nor published in any way without the consent of Onesurvey Ltd. Only the appointed Chartered Surveyor can utilise the information contained herein for the purposes of providing a transcription report for mortgage/loan purposes.

SINGLE SURVEY TERMS AND CONDITIONS (WITH MVR)

PART 1 - GENERAL

1.1 THE SURVEYORS

The Seller has engaged the Surveyors to provide the Single Survey Report and a generic Mortgage Valuation Report for Lending Purposes. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited Energy Company.

The Surveyors are authorised to provide a transcript or retype of the generic Mortgage Valuation Report on to Lender specific pro-forma. Transcript reports are commonly requested by Brokers and Lenders. The transcript report will be in the format required by the Lender but will contain the same information, inspection date and valuation figure as the generic Mortgage Valuation Report and the Single Survey. The Surveyors will decline any transcript request which requires the provision of information additional to the information in the Report and the generic Mortgage Valuation Report until the Seller has conditionally accepted an offer to purchase made in writing.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Purchaser's lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report and generic Mortgage Valuation Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors require to amend the valuation in consequence of such information, they will issue an amended Report and generic Mortgage Valuation Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report and generic Mortgage Valuation Report are transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who is competent to survey, value and report upon Residential Property.¹

If the Surveyors have had a previous business relationship within the past two years with the Seller or Sellers Agent or relative to the property, they will be obliged to indicate this by ticking the adjacent box.

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

1.2 THE REPORT

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

¹ Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Codes of Conduct

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

To date, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Single Survey is instructed by the Seller and made available to all potential Purchasers in expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Single Survey may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions.

The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective purchasers and the Purchaser and their respective professional advisers without the prior written consent of the Surveyors.

1.3 LIABILITY

The Report is prepared with the skill and care reasonably to be expected of a competent residential surveyor who is a member of the Royal Institution of Chartered Surveyors.

The Report is addressed to the Seller and was prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would (or, as the case might be, would have been) be disclosed and delivered to

- the Seller;
- any person(s) noting an interest in purchasing the Property from the Seller;
- any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether or not that offer is accepted by the Seller;
- the Purchaser; and
- the professional advisers of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

1.4 GENERIC MORTGAGE VALUATION REPORT

The Surveyors undertake to the Seller that they will prepare a generic Mortgage Valuation Report, which will be issued along with the Single Survey. It is the responsibility of the Seller to ensure that the generic Mortgage Valuation Report is provided to every potential Purchaser.

1.5 TRANSCRIPT MORTGAGE VALUATION FOR LENDING PURPOSES

The Surveyors undertake that on being asked to do so by a prospective purchaser, or his/her professional advisor or Lender, they will prepare a Transcript Mortgage Valuation Report for Lending Purposes on terms and conditions to be agreed between the Surveyors and Lender and solely for the use of the Lender and upon which the Lender may rely. The decision as to whether finance will be provided is entirely a matter for the Lender. The Transcript Mortgage Valuation Report will be prepared from information contained in the Report and the generic Mortgage Valuation Report. 2

1.6 INTELLECTUAL PROPERTY

All intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the Surveyors and shall remain their exclusive property unless they assign the same to any other party in writing.

1.7 PAYMENT

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid. Additional fees will be charged for subsequent inspections and Reports.

1.8 CANCELLATION

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection.

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the property, the Surveyor concludes that it is of a type of construction of which the surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the property, the surveyor concludes that the property is exempt under Part 3 of The Housing (Scotland) Act 2006 as detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled, at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for

expenses reasonably incurred and any fee due in light of the final paragraph of this section.

In the case of cancellation by the Seller, for whatever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an Invoice equivalent to 80% of the agreed fee.

1.9 PRECEDENCE

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

1.10 DEFINITIONS

- the "Lender" is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the "Transcript Mortgage Valuation Report for Lending Purposes" means a separate report, prepared by the Surveyor, prepared from information in the Report and the generic Mortgage Valuation Report, but in a style and format required by the Lender. The Transcript Mortgage Valuation Report for Lending Purposes will be prepared with the skill and care reasonably to be expected from a surveyor who is a member of the Royal Institution of Chartered Surveyors and who is competent to survey, value and report on the Property;
- the "Generic Mortgage Valuation Report" means a separate report, prepared by the Surveyor from information in the Report but in the Surveyor's own format.
- the "Market Value" is *The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion*
- the "Property" is the property which forms the subject of the Report;
- the "Purchaser" is the person (or persons) who enters into a contract to buy the Property from the Seller;
- a "prospective Purchaser" is anyone considering buying the Property.
- the "Report" is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- the "Seller" is/are the proprietor(s) of the Property;
- the "Surveyor" is the author of the Report on the Property; and

² Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Rules of Conduct.

- the "Surveyors" are the firm or company of which the Surveyor is an employee, director, member or partner (unless the Surveyor is not an employee, director, member or partner, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report.
- the "Energy Report" is the advice given by the accredited Energy Company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.

PART 2 – DESCRIPTION OF THE REPORT

2.1 THE SERVICE

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by Statute and this is in the format of the accredited Energy Company. In addition, the Surveyor has agreed to supply a generic Mortgage Valuation Report.

2.2 THE INSPECTION

The Inspection is a general surface examination of those parts of the Property which are accessible: in other words, *visible and readily available for examination from ground and floor levels, without risk of causing damage to the Property or injury to the Surveyor.*

All references to visual inspection refer to an inspection from within the property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the property.

The Inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Single Survey of properties that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a Register of Asbestos and effective Management Plan is in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

2.3 THE REPORT

The Report will be prepared by the Surveyor who carried out the property inspection and will describe various aspects of the property as defined by the headings of the Single Survey report with the comments being general and unbiased. The report on the location, style and condition of the property, will be concise and will be restricted to matters that could have a material effect upon value and will omit items that, in the Surveyor's opinion, are not

significant. If certain minor matters are mentioned, it should not be interpreted that the property is free of any other minor defects.

Throughout the report, the following repair categories will be used to give an overall opinion of the state of repair and condition of the property.

2.3.1 Category 3: Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.

2.3.2 Category 2: Repairs or replacement requiring future attention, but estimates are still advised.

2.3.3 Category 1: No immediate action or repair is needed.

WARNING: If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions when the effect can be considerable.

Parts of the property, which cannot be seen or accessed, will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors.

2.4 SERVICES

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

2.5 ACCESSIBILITY

A section is included to help identify the basic information interested parties need to know to decide whether to view a property.

2.6 ENERGY REPORT

A section is included that makes provision for an Energy Report, relative to the property. The Surveyor will collect physical data from the property and provide such data in a format required by an accredited Energy Company. The Surveyor cannot of course accept liability for any advice given by the Energy Company.

2.7 VALUATION AND CONVEYANCER ISSUES

The last section of the Report contains matters considered relevant to the Conveyancer (Solicitor). It also contains the Surveyor's opinion both of the market value of the property and of the re-instatement cost, as defined below.

"Market Value" The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an

arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. In arriving at the opinion of the Market Value the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of un-inspected parts; the right to use mains services; and the exclusion of curtains, carpets etc. from the valuation. In the case of flats, the following further assumptions are made that:

- *There are rights of access and exit over all communal roadways, corridors, stairways etc. and to use communal grounds, parking areas, and other facilities;
- *There are no particularly troublesome or unusual legal restrictions;
- *There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

“Re-instatement cost” is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on the fees).

Sellers or prospective Purchasers may consider it prudent to instruct a reinspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market and/or in the physical condition of the Property

1. INFORMATION AND SCOPE OF INSPECTION

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the Surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without moving any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right in a description of the exterior of the property refer to the view of someone standing facing that part of the property from the outside.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the Surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the Surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities will not be inspected or reported on.

| | |
|---|---|
| Description | The subjects comprise a mid-terraced, two storey dwelling house. |
| Accommodation | The accommodation may be summarised as follows: Ground floor - vestibule, hall, living room, kitchen and bathroom. First floor - landing, bedroom with en suite shower room, one further bedroom and WC compartment. |
| Gross internal floor area (m ²) | Approximately 74 sqm. |
| Neighbourhood and location | The property forms part of an established residential area in the Hill district of Inverness where surrounding properties are of a similar age and character. Local amenities can be found nearby and the city centre is a short walk away. |
| Age | Approximately 125 years old. |
| Weather | Weather conditions were dry and overcast at the time of inspection, preceded by similar weather. |
| Chimney stacks | The chimney stack is constructed in stone with the pointed finish supporting fire clay pots. Visually inspected. |
| Roofing including roof space | The roof is of a traditional pitched design, clad externally with slates over timber trusses and timber sarking material. The rear extensions are mono-pitched and clad with corrugated sheeting or profile metal sheeting. Internally, a partial inspection was available of the roof space via a drop down ladder in the landing and the partially floored areas. This inspection found the area to be insulated with glass wool quilting. Visually inspected. |

| | |
|-------------------------------------|--|
| Rainwater fittings | <p>The rainwater goods comprise PVC or cast iron gutters and downpipes.</p> <p>Visually inspected.</p> |
| Main walls | <p>The main outer walls are of solid stone construction, pointed externally and lined internally with lath and plaster or plasterboard.</p> <p>The ground floor rear extension is of cavity brick construction, rendered externally and plasterboard lined internally, whilst the first floor WC compartment appears to be of single brick construction, rendered externally and plasterboard lined internally.</p> <p>Visually inspected.</p> |
| Windows, external doors and joinery | <p>Windows throughout comprise uPVC double glazed units, although there is an aluminium framed double glazed window in the rear bedroom.</p> <p>The front entrance door is timber framed with a single glazed panel above. The rear door is uPVC double glazed.</p> <p>External fascias are formed in painted softwood.</p> <p>Visually inspected.</p> |
| External decorations | <p>As above, timbers have a paint finish.</p> <p>Visually inspected.</p> |
| Conservatories / porches | Not applicable. |
| Communal areas | <p>There is a shared area of garden ground at the rear of the terrace.</p> <p>Visually inspected.</p> |
| Garages and permanent outbuildings | <p>There is no garage or permanent outbuilding.</p> <p>Visually inspected.</p> |
| Outside areas and boundaries | <p>There is a small area of garden ground at the front, consistent with neighbouring properties and we understand that there is a shared communal garden area at the rear of the terrace.</p> <p>Boundaries are formed in stone walls or timber fencing.</p> <p>Visually inspected.</p> |
| Ceilings | <p>Ceilings are lath and plaster or plasterboard lined.</p> <p>Visually inspected.</p> |
| Internal walls | <p>Internal walls and partitions are lath and plaster or plasterboard lined.</p> <p>Visually inspected.</p> |

| | |
|---------------------------------------|--|
| Floors including sub floors | <p>Flooring is of a traditional suspended timber joist design, overlaid with tongued and grooved floorboards. The exception is a small area of solid concrete floor in the kitchen extension area.</p> <p>At the time of inspection, the property was found to be occupied, furnished and all floors had fitted coverings. The inspection was consequently restricted and there was no available access to any sub floor areas.</p> <p>Visually inspected.</p> |
| Internal joinery and kitchen fittings | <p>The internal skirtings and facings comprise painted softwood finishes.</p> <p>The kitchen is fitted with wall and base units, together with associated worktops, stainless steel sink unit and integrated appliances.</p> <p>Visually inspected.</p> |
| Chimney breasts and fireplaces | <p>There is a living flame gas fire at the living room fireplace which was not in use at the time of inspection.</p> <p>The remaining original fireplaces have been blocked up.</p> <p>Visually inspected.</p> |
| Internal decorations | <p>Internally, walls and ceiling linings are painted, wallpapered, tiled or finished with wet wall cladding.</p> <p>Visually inspected.</p> |
| Cellars | Not applicable. |
| Electricity | <p>The property is connected to the mains electricity supply. The circuitry is protected by fuses/circuit breakers in the hallway.</p> <p>Visually inspected.</p> |
| Gas | <p>There is a mains gas supply. The gas meter is located externally at the front elevation.</p> <p>Visually inspected.</p> |
| Water, plumbing and bathroom fittings | <p>The property is connected to the mains water supply.</p> <p>Where visible, distribution pipework is formed in copper and waste pipes are formed in PVC.</p> <p>The first floor WC compartment is fitted with a two piece white suite which includes a WC and wash hand basin.</p> <p>The first floor en suite shower room is fitted with a three piece white suite which includes a WC, wash hand basin and shower with mixer fitting.</p> <p>The ground floor shower room is fitted with an easy access shower enclosure, WC and wash hand basin.</p> <p>Visually inspected.</p> |

| | |
|-------------------------------------|--|
| Heating and hot water | <p>Space heating is provided via the gas fired Ideal Logic combi boiler which is located in the kitchen cupboard. This serves thermostatically controlled radiators throughout the main living accommodation and also provides domestic hot water.</p> <p>Visually inspected.</p> |
| Drainage | <p>Drainage is connected to the main public sewer.</p> <p>Visually inspected.</p> |
| Fire, smoke and burglar alarms | <p>Smoke alarms are fitted in the hall, living room and landing.</p> <p>There is a heat detector in the kitchen.</p> <p>Carbon monoxide detectors are fitting the living room and kitchen.</p> <p>Visually inspected.</p> |
| Any additional limits to inspection | <p>The property was unoccupied, fully furnished and all floors were covered.</p> <p>Services, electrical circuits, plumbing installation, heating and drainage systems have not been specifically tested.</p> <p>Parts of the property which are covered, unexposed or inaccessible cannot be guaranteed to be free from defect.</p> <p>Inspection of the roof space was restricted to areas visible from the hatch. Inspection was restricted by the presence of insulation material. Insulation has not been disturbed in accordance with Health & Safety guidelines and furniture, personal effects (particularly in cupboards) and floor coverings have not been moved.</p> <p>Sub-floor areas were not accessed.</p> <p>Areas below the bath and shower trays were not visible.</p> <p>Inspection of the exterior of the building was restricted to areas visible from ground level within the grounds of the subjects and from the public road.</p> <p>No investigation of any contamination on, under or within the property has been made as we consider such matters to be outwith the scope of this report. All property built prior to the year 2000 may contain asbestos in one or more of its components or fittings. It is impossible to identify without a test. It is beyond the scope of this inspection to test for asbestos and future occupants should be advised that if they have any concerns, then they should ask for a specialist to undertake appropriate tests. Asbestos is not harmful unless fibres are released into the air.</p> |

Sectional Diagram showing elements of a typical house

Reference may be made in this report to some or all of the above component parts of the property. This diagram may assist you in locating and understanding these items.

2. CONDITION

This section identifies problems and tells you about the urgency of any repairs by using one of the above 3 categories:

| Category 3 | Category 2 | Category 1 |
|--|---|--|
| Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now. | Repairs or replacement requiring future attention, but estimates are still advised. | No immediate action or repair is needed. |

| | |
|---------------------|---|
| Structural movement | |
| Repair category: | 1 |
| Notes: | There is indication of past structural movement but this is consistent with its age and character and not thought to be significant or progressive. |

| | |
|-------------------------------|---|
| Dampness, rot and infestation | |
| Repair category: | 2 |
| Notes: | There is evidence of woodworm infestation to timbers, seen in both the roof space and understair cupboard. If this has not been treated to guarantee standards in the past, then the relevant treatments should be completed by a reputable timber and damp specialist. |

| | |
|------------------|---|
| Chimney stacks | |
| Repair category: | 2 |
| Notes: | Weathering noted to the chimney stack, consistent with age and type. Routine maintenance should be anticipated. |

| | |
|------------------------------|---|
| Roofing including roof space | |
| Repair category: | 2 |
| Notes: | There are some cracked slates. The slate roof covering will require regular and ongoing maintenance. As mentioned above, there is evidence of woodworm infestation to timbers in the roof space. |

| Category 3 | Category 2 | Category 1 |
|--|---|--|
| Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now. | Repairs or replacement requiring future attention, but estimates are still advised. | No immediate action or repair is needed. |

Rainwater fittings

| | |
|------------------|---|
| Repair category: | 2 |
| Notes: | Some corrosion was noted to the cast iron downpipe at the front. Routine maintenance should be anticipated. |

Main walls

| | |
|------------------|--|
| Repair category: | 1 |
| Notes: | Generally in satisfactory condition, consistent with age and type. Hairline cracking was evident to the wall of the kitchen but this is not considered significant. |

Windows, external doors and joinery

| | |
|------------------|---|
| Repair category: | 2 |
| Notes: | Weathering noted to some window timber sills. There is a cracked glazed window between the bathroom and kitchen. |

External decorations

| | |
|------------------|--|
| Repair category: | 2 |
| Notes: | As mentioned above, some of the external fabric is showing signs of weathering and in need of maintenance. |

Conservatories / porches

| | |
|------------------|-----------------|
| Repair category: | |
| Notes: | Not applicable. |

Communal areas

| | |
|------------------|--|
| Repair category: | 1 |
| Notes: | Communal areas appear to be suitably maintained. |

| Category 3 | Category 2 | Category 1 |
|--|---|--|
| Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now. | Repairs or replacement requiring future attention, but estimates are still advised. | No immediate action or repair is needed. |

| | |
|------------------------------------|-----------------|
| Garages and permanent outbuildings | |
| Repair category: | |
| Notes: | Not applicable. |

| | |
|------------------------------|---|
| Outside areas and boundaries | |
| Repair category: | 1 |
| Notes: | As above, grounds around the property appear to be suitably tended. |

| | |
|------------------|---|
| Ceilings | |
| Repair category: | 2 |
| Notes: | There are some areas of plaster cracking. Repairs will be required prior to redecoration. |

| | |
|------------------|---|
| Internal walls | |
| Repair category: | 2 |
| Notes: | There are some areas of plaster cracking. Repairs will be required prior to redecoration. |

| | |
|-----------------------------|--|
| Floors including sub-floors | |
| Repair category: | 1 |
| Notes: | Within the limitations of inspection, no visual defects were apparent. |

| | |
|---------------------------------------|--|
| Internal joinery and kitchen fittings | |
| Repair category: | 1 |
| Notes: | Subject to normal wear and tear, consistent with age and type. |

| Category 3 | Category 2 | Category 1 |
|--|---|--|
| Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now. | Repairs or replacement requiring future attention, but estimates are still advised. | No immediate action or repair is needed. |

Chimney breasts and fireplaces

| | |
|------------------|---|
| Repair category: | 1 |
| Notes: | Although not tested, no visual defects were apparent. |

Internal decorations

| | |
|------------------|---|
| Repair category: | 1 |
| Notes: | Internally, the property was found to be in a reasonable decorative order. Any future purchaser is likely to carry out redecoration to their own taste. |

Cellars

| | |
|------------------|-----------------|
| Repair category: | |
| Notes: | Not applicable. |

Electricity

| | |
|------------------|--|
| Repair category: | 2 |
| Notes: | The electrical system is on (semi modern/mixed) lines and as such we recommend that it be checked and upgraded as necessary by an NICEIC/SELECT registered Electrical Contractor. We would recommend an Electrical Installation Condition Report (EICR) be obtained prior to purchase. |

Gas

| | |
|------------------|--|
| Repair category: | 1 |
| Notes: | Although not specifically tested, no visual defects were apparent. |

| Category 3 | Category 2 | Category 1 |
|--|---|--|
| Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now. | Repairs or replacement requiring future attention, but estimates are still advised. | No immediate action or repair is needed. |

Water, plumbing and bathroom fittings

| | |
|------------------|---|
| Repair category: | 2 |
| Notes: | The en suite shower sealant appears to require maintenance. There is a missing WC lid in the en suite shower room. |

Heating and hot water

| | |
|------------------|--|
| Repair category: | 1 |
| Notes: | The central heating boiler should be checked and serviced annually to ensure its safe and efficient operation. |

Drainage

| | |
|------------------|---|
| Repair category: | 1 |
| Notes: | There was no surface indication of any defects noted. |

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the comments above for detailed information.

| | |
|--|---|
| Structural movement | 1 |
| Dampness, rot and infestation | 2 |
| Chimney stacks | 2 |
| Roofing including roof space | 2 |
| Rainwater fittings | 2 |
| Main walls | 1 |
| Windows, external doors and joinery | 2 |
| External decorations | 2 |
| Conservatories / porches | |
| Communal areas | 1 |
| Garages and permanent outbuildings | |
| Outside areas and boundaries | 1 |
| Ceilings | 2 |
| Internal walls | 2 |
| Floors including sub-floors | 1 |
| Internal joinery and kitchen fittings | 1 |
| Chimney breasts and fireplaces | 1 |
| Internal decorations | 1 |
| Cellars | |
| Electricity | 2 |
| Gas | 1 |
| Water, plumbing and bathroom fittings | 2 |
| Heating and hot water | 1 |
| Drainage | 1 |

Remember

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

Warning

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

3. ACCESSIBILITY INFORMATION

Guidance Notes on Accessibility Information

Three steps or fewer to a main entrance door of the property: In flatted developments the 'main entrance' would be the flat's own entrance door, not the external door to the communal stair. The 'three steps or fewer' are counted from external ground level to the flat's entrance door. Where a lift is present, the count is based on the number of steps climbed when using the lift.

Unrestricted parking within 25 metres: For this purpose, 'Unrestricted parking' includes parking available by means of a parking permit. Restricted parking includes parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coinoperated machines.

| | |
|--|---|
| 1. Which floor(s) is the living accommodation on? | Ground and first. |
| 2. Are there three steps or fewer to a main entrance door of the property? | <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO |
| 3. Is there a lift to the main entrance door of the property? | <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO |
| 4. Are all door openings greater than 750mm? | <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO |
| 5. Is there a toilet on the same level as the living room and kitchen? | <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO |
| 6. Is there a toilet on the same level as a bedroom? | <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO |
| 7. Are all rooms on the same level with no internal steps or stairs? | <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO |
| 8. Is there unrestricted parking within 25 metres of an entrance door to the building? | <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO |

4. VALUATION AND CONVEYANCER ISSUES

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated re-instatement cost for insurance purposes.

| | |
|--|---|
| Matters for a solicitor or licensed conveyancer | |
| <p>We have assumed that the property possesses a good and valid title and that the tenure is standard or absolute ownership.</p> <p>The arrangement with the communal garden grounds should be confirmed via the title deeds.</p> <p>The property is located in the Hill district which is a Conservation Area.</p> | |
| Estimated re-instatement cost (£) for insurance purposes | |
| <p>295,000</p> <p>We are of the opinion that the subjects should be insured for buildings reinstatement purposes for a sum of not less than the above noted figure.</p> | |
| Valuation (£) and market comments | |
| <p>215,000 (Two hundred and fifteen thousand pounds).</p> <p>Our valuation reflects current market conditions relating to this area. We would assume that current trends will prevail at the ultimate date of disposal with no adverse or onerous matters being introduced into the market during the intervening period which would have a detrimental effect on price.</p> | |

MORTGAGE VALUATION REPORT

Includes a market valuation of the property.

Mortgage Valuation Report

| | | |
|---------------------|---|--|
| Property: | 62 Denny Street Inverness IV2 3AR | Client: Ms. Isobel McDonald Tenure: Scottish ownership. |
| Date of Inspection: | 10/02/2026 | Reference: I/26/02/026 |

This report has been prepared as part of the seller's instructions to carry out a Single Survey on the property referred to above. The purpose of this report is to summarise the Single Survey for the purpose of advising a potential lender on the suitability of the property for mortgage purposes. The decision as to whether mortgage finance will be provided is entirely a matter for the lender. You should not rely on this report in making your decision to purchase but consider all the documents provided in the Home Report. Your attention is drawn to the additional comments elsewhere within the report which set out the extent and limitations of the service provided. This report should be read in conjunction with the Single Survey Terms and Conditions (with MVR). In accordance with RICS Valuation – Global Standards 2017 this report is for the use of the party to whom it is addressed or their named client or their nominated lender. No responsibility is accepted to any third party for the whole or any part of the reports contents. Neither the whole or any part of this report may be included in any document, circular or statement without prior approval in writing from the surveyor.

1.0 LOCATION

The property forms part of an established residential area in the Hill district of Inverness where surrounding properties are of a similar age and character. Local amenities can be found nearby and the city centre is a short walk away.

| | | | |
|-----|-------------|----------|------------------------------|
| 2.0 | DESCRIPTION | 2.1 Age: | Approximately 125 years old. |
|-----|-------------|----------|------------------------------|

The subjects comprise a mid-terraced, two storey dwelling house.

3.0 CONSTRUCTION

The roof is of a traditional pitched design, clad externally with slates over timber trusses and timber sarking material.

The rear extensions are mono-pitched and clad with corrugated sheeting or profile metal sheeting.

The main outer walls are of solid stone construction, pointed externally and lined internally with lath and plaster or plasterboard.

The ground floor rear extension is of cavity brick construction, rendered externally and plasterboard lined internally, whilst the first floor WC compartment appears to be of single brick construction, rendered externally and plasterboard lined internally.

Internally, floors throughout are of a suspended timber design, although there is a small solid concrete floor in the rear kitchen area.

4.0 ACCOMMODATION

| | | | | | | | |
|---|--|-----------------------------------|---------------------------|------|-------|---------------|-------------|
| The accommodation may be summarised as follows: | | | | | | | |
| Ground floor - vestibule, hall, living room, kitchen and bathroom. | | | | | | | |
| First floor - landing, bedroom with en suite shower room, one further bedroom and WC compartment. | | | | | | | |
| 5.0 | SERVICES (No tests have been applied to any of the services) | | | | | | |
| Water: | Mains | Electricity: | Mains | Gas: | Mains | Drainage: | Mains sewer |
| Central Heating: | | Gas fired central heating system. | | | | | |
| 6.0 | OUTBUILDINGS | | | | | | |
| Garage: | | None. | | | | | |
| Others: | | None. | | | | | |
| 7.0 | GENERAL CONDITION - A building survey has not been carried out, nor has any inspection been made of any woodwork, services or other parts of the property which were covered, unexposed or inaccessible. The report cannot therefore confirm that such parts of the property are free from defect. Failure to rectify defects, particularly involving water penetration may result in further and more serious defects arising. Where defects exist and where remedial work is necessary, prospective purchasers are advised to seek accurate estimates and costings from appropriate Contractors or Specialists before proceeding with the purchase. Generally we will not test or report on boundary walls, fences, outbuildings, radon gas or site contamination. | | | | | | |
| The property was found to be in a satisfactory condition, consistent with age and type. Defects noted should prove capable of remedy within the scope of ongoing routine maintenance. | | | | | | | |
| 8.0 | ESSENTIAL REPAIR WORK (as a condition of any mortgage or, to preserve the condition of the property) | | | | | | |
| None. | | | | | | | |
| 8.1 Retention recommended: | | | Nil | | | | |
| 9.0 | ROADS & FOOTPATHS | | | | | | |
| Made up and adopted by the local authority. | | | | | | | |
| 10.0 | BUILDINGS INSURANCE (£): | 295,000 | GROSS EXTERNAL FLOOR AREA | | 83 | Square metres | |
| | This figure is an opinion of an appropriate sum for which the property and substantial outbuildings should be insured against total destruction on a re-instatement basis assuming reconstruction of the property in its existing design and materials. Furnishings and fittings have not been included. No allowance has been included for inflation during the insurance period or during re-construction and no allowance has been made for VAT, other than on professional fees. Further discussions with your insurers is advised. | | | | | | |
| 11.0 | GENERAL REMARKS | | | | | | |
| We have assumed that the property possesses a good and valid title and that the tenure is standard or absolute ownership. | | | | | | | |
| The arrangement with the communal garden grounds should be confirmed via the title deeds. | | | | | | | |
| The property is located in the Hill district which is a Conservation Area. | | | | | | | |
| 12.0 | VALUATION On the assumption of vacant possession and that the property is unaffected by any adverse planning proposals, onerous burdens, title restrictions or servitude rights. It is assumed that all necessary Local Authority consents, which may have been required, have been sought and obtained. No investigation of any contamination on, under or within the property has been made as we consider such matters to be outwith the scope of this report. All property built prior to the year 2000 may contain asbestos in one or more of its components or fittings. It is impossible to identify without a test. It is beyond the scope of this inspection to test for asbestos and future occupants should be advised that if they have any concerns then they should ask for a specialist to undertake appropriate tests. | | | | | | |

| | | | | |
|---|---|--|---|------------|
| 12.1 | Market Value in present condition (£): | 215,000 (Two hundred and fifteen thousand pounds). | Our valuation reflects current market conditions relating to this area. We would assume that current trends will prevail at the ultimate date of disposal with no adverse or onerous matters being introduced into the market during the intervening period which would have a detrimental effect on price. | |
| 12.2 | Market Value on completion of essential works (£): | N/A | N/A | |
| 12.3 | Suitable security for normal mortgage purposes? | Yes | | |
| 12.4 | Date of Valuation: | 10/02/2026 | | |
| Signature: | | Electronically Signed: 306149-640524C0-094F | | |
| Surveyor: | Keith Campbell | Assoc.RICS | Date: | 11/02/2026 |
| Inverness - Allied Surveyors Scotland Ltd | | | | |

Energy Performance Certificate (EPC)

Scotland

Dwellings

62 DENNY STREET, INVERNESS, IV2 3AR

Dwelling type: Mid-terrace house
Date of assessment: 10 February 2026
Date of certificate: 11 February 2026
Total floor area: 74 m²
Primary Energy Indicator: 300 kWh/m²/year

Reference number: 8416-0022-0200-0460-2296
Type of assessment: RdSAP, existing dwelling
Approved Organisation: Elmhurst
Main heating and fuel: Boiler and radiators, mains gas

You can use this document to:

- Compare current ratings of properties to see which are more energy efficient and environmentally friendly
- Find out how to save energy and money and also reduce CO₂ emissions by improving your home

| | | |
|---|--------|--|
| Estimated energy costs for your home for 3 years* | £4,425 | See your recommendations report for more information |
| Over 3 years you could save* | £618 | |

* based upon the cost of energy for heating, hot water, lighting and ventilation, calculated using standard assumptions

Very energy efficient - lower running costs

Not energy efficient - higher running costs

| Current | Potential |
|---------|-----------|
| 60 | 69 |

Energy Efficiency Rating

This graph shows the current efficiency of your home, taking into account both energy efficiency and fuel costs. The higher this rating, the lower your fuel bills are likely to be.

Your current rating is **band D (60)**. The average rating for EPCs in Scotland is **band D (61)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Very environmentally friendly - lower CO₂ emissions

Not environmentally friendly - higher CO₂ emissions

| Current | Potential |
|---------|-----------|
| 55 | 63 |

Environmental Impact (CO₂) Rating

This graph shows the effect of your home on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating, the less impact it has on the environment.

Your current rating is **band D (55)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Top actions you can take to save money and make your home more efficient

| Recommended measures | Indicative cost | Typical savings over 3 years |
|--------------------------------------|------------------|------------------------------|
| 1 Cavity wall insulation | £900 - £1,500 | £225.00 |
| 2 Internal wall insulation | £7,500 - £11,000 | £279.00 |
| 3 Floor insulation (suspended floor) | £5,000 - £10,000 | £114.00 |

A full list of recommended improvement measures for your home, together with more information on potential cost and savings and advice to help you carry out improvements can be found in your recommendations report.

To find out more about the recommended measures and other actions you could take today to stop wasting energy and money, visit greenerscotland.org or contact Home Energy Scotland on 0808 808 2282.

THIS PAGE IS THE ENERGY PERFORMANCE CERTIFICATE WHICH MUST BE AFFIXED TO THE DWELLING AND NOT BE REMOVED UNLESS IT IS REPLACED WITH AN UPDATED CERTIFICATE

Summary of the energy performance related features of this home

This table sets out the results of the survey which lists the current energy-related features of this home. Each element is assessed by the national calculation methodology; 1 star = very poor (least efficient), 2 stars = poor, 3 stars = average, 4 stars = good and 5 stars = very good (most efficient). The assessment does not take into consideration the condition of an element and how well it is working. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology, based on age and type of construction.

| Element | Description | Energy Efficiency | Environmental |
|-----------------------|---|-------------------|---------------|
| Walls | Sandstone, as built, no insulation (assumed) | ★★☆☆☆ | ★★☆☆☆ |
| | System built, as built, no insulation (assumed) | ★☆☆☆☆ | ★☆☆☆☆ |
| | Cavity wall, as built, no insulation (assumed) | ★★☆☆☆ | ★★☆☆☆ |
| Roof | Pitched, 270 mm loft insulation | ★★★★★ | ★★★★★ |
| | Pitched, insulated (assumed) | ★★★☆☆ | ★★★☆☆ |
| Floor | Suspended, no insulation (assumed) | — | — |
| | Solid, no insulation (assumed) | — | — |
| Windows | Fully double glazed | ★★☆☆☆ | ★★☆☆☆ |
| Main heating | Boiler and radiators, mains gas | ★★★★☆ | ★★★★☆ |
| Main heating controls | Programmer, room thermostat and TRVs | ★★★★☆ | ★★★★☆ |
| Secondary heating | Room heaters, mains gas | — | — |
| Hot water | From main system | ★★★★☆ | ★★★★☆ |
| Lighting | Below average lighting efficiency | ★★★☆☆ | ★★★☆☆ |

The energy efficiency rating of your home

Your Energy Efficiency Rating is calculated using the standard UK methodology, RdSAP. This calculates energy used for heating, hot water, lighting and ventilation and then applies fuel costs to that energy use to give an overall rating for your home. The rating is given on a scale of 1 to 100. Other than the cost of fuel for electrical appliances and for cooking, a building with a rating of 100 would cost almost nothing to run.

As we all use our homes in different ways, the energy rating is calculated using standard occupancy assumptions which may be different from the way you use it. The rating also uses national weather information to allow comparison between buildings in different parts of Scotland. However, to make information more relevant to your home, local weather data is used to calculate your energy use, CO₂ emissions, running costs and the savings possible from making improvements.

The impact of your home on the environment

One of the biggest contributors to global warming is carbon dioxide. The energy we use for heating, lighting and power in our homes produces over a quarter of the UK's carbon dioxide emissions. Different fuels produce different amounts of carbon dioxide for every kilowatt hour (kWh) of energy used. The Environmental Impact Rating of your home is calculated by applying these 'carbon factors' for the fuels you use to your overall energy use.

The calculated emissions for your home are 55 kg CO₂/m²/yr.

The average Scottish household produces about 6 tonnes of carbon dioxide every year. Based on this assessment, heating and lighting this home currently produces approximately 4.1 tonnes of carbon dioxide every year. Adopting recommendations in this report can reduce emissions and protect the environment. If you were to install all of these recommendations this could reduce emissions by 0.8 tonnes per year. You could reduce emissions even more by switching to renewable energy sources.

Estimated energy costs for this home

| | Current energy costs | Potential energy costs | Potential future savings |
|---------------|----------------------|------------------------|---|
| Heating | £3,771 over 3 years | £3,153 over 3 years |  |
| Hot water | £465 over 3 years | £465 over 3 years | |
| Lighting | £189 over 3 years | £189 over 3 years | |
| Totals | £4,425 | £3,807 | |

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances such as TVs, computers and cookers, and the benefits of any electricity generated by this home (for example, from photovoltaic panels). The potential savings in energy costs show the effect of undertaking all of the recommended measures listed below.

Recommendations for improvement

The measures below will improve the energy and environmental performance of this dwelling. The performance ratings after improvements listed below are cumulative; that is, they assume the improvements have been installed in the order that they appear in the table. Further information about the recommended measures and other simple actions to take today to save money is available from the Home Energy Scotland hotline which can be contacted on 0808 808 2282. Before carrying out work, make sure that the appropriate permissions are obtained, where necessary. This may include permission from a landlord (if you are a tenant) or the need to get a Building Warrant for certain types of work.

| Recommended measures | Indicative cost | Typical saving per year | Rating after improvement | |
|--------------------------------------|------------------|-------------------------|---|---|
| | | | Energy | Environment |
| 1 Cavity wall insulation | £900 - £1,500 | £75 |  |  |
| 2 Internal wall insulation | £7,500 - £11,000 | £93 |  |  |
| 3 Floor insulation (suspended floor) | £5,000 - £10,000 | £38 |  |  |
| 4 Solar photovoltaic panels, 2.5 kWp | £8,000 - £10,000 | £194 |  |  |

Alternative measures

There are alternative improvement measures which you could also consider for your home. It would be advisable to seek further advice and illustration of the benefits and costs of such measures.

- External insulation with cavity wall insulation
- Cavity, internal or external wall insulation

Choosing the right improvement package

For free and impartial advice on choosing suitable measures for your property, contact the Home Energy Scotland hotline on 0808 808 2282 or go to www.greenerscotland.org.

About the recommended measures to improve your home's performance rating

This section offers additional information and advice on the recommended improvement measures for your home

1 Cavity wall insulation

Cavity wall insulation, to fill the gap between the inner and outer layers of external walls with an insulating material, reduces heat loss; this will improve levels of comfort, reduce energy use and lower fuel bills. The insulation material is pumped into the gap through small holes that are drilled into the outer walls, and the holes are made good afterwards. As specialist machinery is used to fill the cavity, a professional installation company should carry out this work, and they should carry out a thorough survey before commencing work to ensure that this type of insulation is suitable for this home and its exposure. They should also provide a guarantee for the work and handle any building standards issues. Further information about cavity wall insulation and details of local installers can be obtained from the National Insulation Association (www.nationalinsulationassociation.org.uk).

2 Internal wall insulation

Internal wall insulation involves adding a layer of insulation to the inside surface of the external walls, which reduces heat loss and lowers fuel bills. As it is more expensive than cavity wall insulation it is only recommended for walls without a cavity, or where for technical reasons a cavity cannot be filled. Internal insulation, known as dry-lining, is where a layer of insulation is fixed to the inside surface of external walls; this type of insulation is best applied when rooms require redecorating. Further information can be obtained from the National Insulation Association (www.nationalinsulationassociation.org.uk).

3 Floor insulation (suspended floor)

Insulation of a floor will significantly reduce heat loss; this will improve levels of comfort, reduce energy use and lower fuel bills. Suspended floors can often be insulated from below but must have adequate ventilation to prevent dampness; seek advice about this if unsure. Further information about floor insulation is available from many sources including www.energysavingtrust.org.uk/scotland/Insulation/Floor-insulation. Building regulations generally apply to this work so it is best to check with your local authority building standards department.

4 Solar photovoltaic (PV) panels

A solar PV system is one which converts light directly into electricity via panels placed on the roof with no waste and no emissions. This electricity is used throughout the home in the same way as the electricity purchased from an energy supplier. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check with your local authority. The assessment does not include the effect of any Feed-in Tariff which could appreciably increase the savings that are shown on this EPC for solar photovoltaic panels, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

Low and zero carbon energy sources

Low and zero carbon (LZC) energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon.

LZC energy sources present: There are none provided for this home

Your home's heat demand

In this section, you can see how much energy you might need to heat your home and provide hot water. These are estimates showing how an average household uses energy. These estimates may not reflect your actual energy use, which could be higher or lower. You might spend more money on heating and hot water if your house is less energy efficient. The table below shows the potential benefit of having your loft and walls insulated. Visit <https://energysavingtrust.org.uk/energy-at-home> for more information.

| Heat demand | Existing dwelling | Impact of loft insulation | Impact of cavity wall insulation | Impact of solid wall insulation |
|------------------------------|-------------------|---------------------------|----------------------------------|---------------------------------|
| Space heating (kWh per year) | 11,192.72 | N/A | N/A | N/A |
| Water heating (kWh per year) | 2,085.96 | | | |

Addendum

This dwelling is a system built property or some of its walls are of non-conventional construction and requires further investigation to establish the type of construction, the type of wall insulation best suited (cavity insulation or internal/external insulation) and the savings it might deliver. Please contact the Home Energy Scotland hotline on 0808 808 2282 to find out more.

About this document

This Recommendations Report and the accompanying Energy Performance Certificate are valid for a maximum of ten years. These documents cease to be valid where superseded by a more recent assessment of the same building carried out by a member of an Approved Organisation.

The Energy Performance Certificate and this Recommendations Report for this building were produced following an energy assessment undertaken by an assessor accredited by Elmhurst (www.elmhurstenergy.co.uk), an Approved Organisation Appointed by Scottish Ministers. The certificate has been produced under the Energy Performance of Buildings (Scotland) Regulations 2008 from data lodged to the Scottish EPC register. You can verify the validity of this document by visiting www.scottishepcregister.org.uk and entering the report reference number (RRN) printed at the top of this page.

| | |
|-----------------------------|--|
| Assessor's name: | Mr. Keith Campbell |
| Assessor membership number: | EES/010338 |
| Company name/trading name: | Allied Surveyors Scotland Ltd |
| Address: | Lyle House, Pavilion 1 Fairways Business Park Invernesshire Inverness IV2 6AA |
| Phone number: | 01463 239 494 |
| Email address: | inverness@alliedsurveyorsscotland.com |
| Related party disclosure: | No related party |

If you have any concerns regarding the content of this report or the service provided by your assessor you should in the first instance raise these matters with your assessor and with the Approved Organisation to which they belong. All Approved Organisations are required to publish their complaints and disciplinary procedures and details can be found online at the web address given above.

Use of this energy performance information

Once lodged by your EPC assessor, this Energy Performance Certificate and Recommendations Report are available to view online at www.scottishepcregister.org.uk, with the facility to search for any single record by entering the property address. This gives everyone access to any current, valid EPC except where a property has a Green Deal Plan, in which case the report reference number (RRN) must first be provided. The energy performance data in these documents, together with other building information gathered during the assessment is held on the Scottish EPC Register and is available to authorised recipients, including organisations delivering energy efficiency and carbon reduction initiatives on behalf of the Scottish and UK governments. A range of data from all assessments undertaken in Scotland is also published periodically by the Scottish Government. Further information on these matters and on Energy Performance Certificates in general, can be found at www.gov.scot/epc.

Advice and support to improve this property

There is support available, which could help you carry out some of the improvements recommended for this property on page 3 and stop wasting energy and money. For more information, visit [greenerscotland.org](https://www.greenerscotland.org) or contact Home Energy Scotland on 0808 808 2282.

Home Energy Scotland's independent and expert advisors can offer free and impartial advice on all aspects of energy efficiency, renewable energy and more.
