DESCRIPTION

2 Church View Court is quite simply an exceptional property. Originally converted from a farmyard complex about 15 years ago, the property is one of five individual stone barns set around a central courtyard. The house presents elevations of stone to the front and painted render to the rear with brick surrounds to the apertures, all beneath a slate roof. All windows and doors are in UPVC double glazed units. The TARDIS-like interior really needs to be viewed to be fully appreciated, because the accommodation is not only generous and versatile, but is presented to an exceptionally high standard. During their tenure, since the property was converted, the vendors have refined the original shell and have added their own flair and style to create an incredibly special home, where quality 21st Century refinements sit well with original period features. A particular feature of the property is the vendors' use of striking colours, wallpapers, flooring and panelling. The house is complemented by well-tended gardens which have been arranged a series of external 'rooms' to follow the sun around, find shade and enjoy different vistas. The over large workshop or studio also has a gardener's wc. In conclusion, if you are looking for something interesting, unique and unusual with manageable garden, peacefully situated – this could be it.
