THE DEVELOPMENT

BEACHSIDE LIVING IN TORRE DEL MAR

Just steps from the sea, in one of the most attractive parts of Torre del Mar, this new contemporary-design development offers 49 one, two and three bedroom homes, priced from €295,000. A bright, well-resolved project deeply connected to the Mediterranean lifestyle.

Torre del Mar, in Málaga's Axarquía, is synonymous with beachside living: an extensive seafront promenade, shops, parks and all daily amenities within walking distance. Just 100 metres from the sea and some 300 metres from the beach, this location lets you enjoy the relaxed atmosphere of Málaga's eastern coast without giving up any urban comfort.

The development offers different layouts to suit every lifestyle: ground floors with private gardens for those who value outdoor space, middle-floor homes with large open terraces and penthouses with big solariums, perfect for making the most of the Costa del Sol climate. Large windows and modern architecture with soft lines define spaces designed for light and the open air.

Inside, each home has been fitted with a careful selection of materials and leading brands.

Highlights include fully equipped kitchens with BOSCH appliances, large-format porcelain flooring and aerothermal climate control, which brings comfort and remarkable energy efficiency all year round.

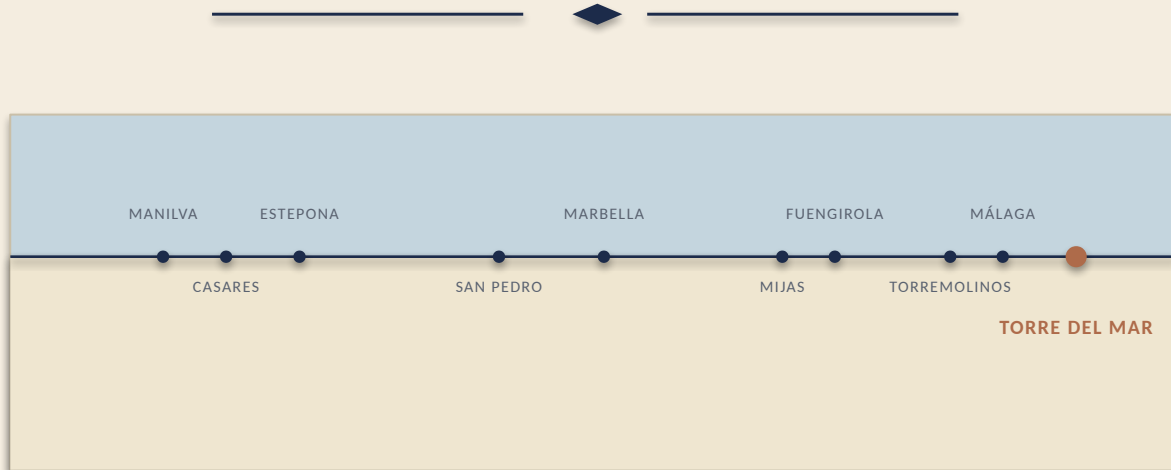

The private development has been designed for wellbeing and social life: a pool with night lighting and solarium area, a landscaped interior courtyard, a private gym with natural light, a coworking space for remote work or meetings and various rest areas among green spaces.

With shops, parks and amenities on your doorstep and the beach practically in front, this development is an ideal opportunity both as a main residence and as an investment on the Costa del Sol, an area with growing demand and a lifestyle that is hard to match.
