A modern four bedroom detached family house with the benefit of a single storey extension.

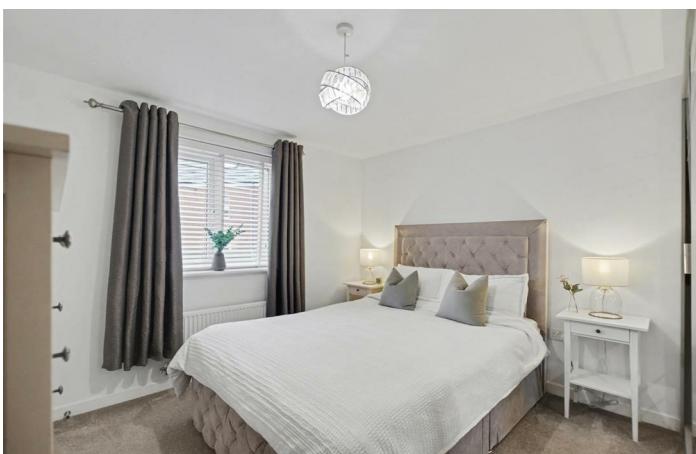

What sets this property apart from many on this now established residential development, known as "Elka Rise", are two things. Firstly, the property enjoys a larger than average wedge shaped garden plot with parking side by side for two vehicles, single garage, private side garden and good sized rear garden. But equally, if not more important, is the current owners have extended the property to the ground floor.

The ground floor extension makes a real feature of this property and provides for a generous semi open plan family dining kitchen with both dining and sitting areas. The extension has bi-fold doors opening to the rear garden for barbequing and entertaining in the Summer months.

This energy efficient home, of course, benefits from gas fired central heating served from a combination boiler and double glazed windows, has great features as well as the extension with two well proportioned reception rooms, a great living space, as well as an additional sitting or dining room - great for growing families. There are four well proportioned bedrooms, the principal with an en-suite shower room.

Situated in this now established residential development on the outskirts of Ilkeston, conveniently placed within walking distance of Hallam Fields Junior School, open space and countryside, as well as offering great commutability and access to both Ilkeston town centre, Nottingham and Derby, and Junction 25 of the M1 motorway for those looking to commute further afield.

Only upon viewing this fantastic family home can it be fully appreciated.
