Technical Specification

The development is a high quality sustainable development using passive and low energy design technologies to reduce the energy demand and therefore reducing CO2 emissions. The outcome is a development which outperforms Building Regulations (Part L1A 2010) requirements by 39.18%.

The scheme achieves this by way of the following:

- High performance glazing to reduce solar and transmission gains
- Improved thermal performance of the buildings
- Mechanical Ventilation Heat Recovery systems with 88% efficiency
- Low carbon Air Source Heat Pumps for heating and hot water
- Very low building air leakage rate
- Low energy lighting
- No fossil fuels
- EV charging points
