Accommodation

Arranged over two floors, the ground floor begins with an entrance hall providing a practical space for coats and shoes, leading to a comfortable sitting room with patio doors opening directly onto the garden. The stylish kitchen area is fitted with modern wall and base units with drawer and door fronts, together with a built in 'Neff' five ring hob with filter hood over and integrated 'Neff' oven. Plumbing is provided for both a washing machine and dishwasher, while a useful breakfast bar separates the kitchen from the dining area. The dining area benefits from patio doors leading to the rear garden and opens through to the sitting room, creating a modern and sociable open plan living space.

Upstairs, the first floor landing gives access to the loft via a pull down ladder and leads to three bedrooms, two of which are generous doubles, together with a modern shower room. Bedrooms one and two benefit from bespoke built in wardrobes and storage. The loft is partially boarded and has plumbing in place for a radiator, providing further potential should purchasers wish to consider a loft conversion, subject to the necessary permissions.

Design and Features

The property benefits from double glazing and gas central heating, providing a comfortable and efficient living environment. The shower room has been updated with a modern suite, while the kitchen has been stylishly fitted to provide a practical and contemporary space. The open plan arrangement of the kitchen, dining and sitting areas creates a particularly appealing environment for modern family living, while the property retains scope for further enhancement and personalisation.

Gardens and Grounds

To the front of the property, the garden is mainly laid to lawn with a raised terrace providing a pleasant spot to sit and enjoy the sunshine and surrounding views. The terrace has been constructed in readiness as a conservatory base, offering buyers the potential to consider adding further accommodation in the future, subject to the necessary permissions.

To the rear, steps lead down to a generous courtyard style area. External features include outside security lighting, courtesy lighting, a power point and side access to the front garden.

A further generous garden area is accessed via steps leading up from the side of the garage. Intentionally left to flourish as a haven for wildlife, this attractive area features winding mown pathways meandering through natural planting and wild berry, together with additional off road parking. The established and informal nature of this part of the garden provides an appealing space for those looking to encourage wildlife and enjoy a more natural garden setting.

Parking and Garage
