- Courtyard and garden

THE PROPERTY

In short, a highly versatile mixed use property within the town centre with various combinations of letting options or an ideal 'live/work' premises, plus additional residential let with the attraction of a rear courtyard and further raised garden.

Having the benefit of separate access to the two apartments from the rear of the building, or with the option of utilising a pre-existing staircase leading from the ground floor and continuing to the second floor, not often do we find such adaptable accommodation combined with the size of commercial space, with the benefit of purchasing the freehold.

A commercial unit with a broad and prominent front window occupies the entire ground floor with staff kitchenette and separate WC. The first floor apartment comprises an entrance hall, lounge/diner, separate kitchen, bedroom and shower room which is centrally heated. The second floor apartment comprises similar sized accommodation, also with gas central heating, and is laid out with a separate kitchen, generous lounge, bedroom with shower room off and a second bedroom/study.

To the upper side of the building, a pedestrian right of way and pathway leads up to an attractively paved courtyard at the rear of the building allowing access to the rear stairwell with both apartment entrances within. Further steps (shared with the neighbouring property) lead up to a raised terrace with further steps to an upper garden, fitted with decking and paving to the rear boundary and catching much sun during the day.
