Overall Description

This highly individual detached period property started life as a farmworker's cottage for the neighbouring estate, probably in the 1800's, before being extended in the 1920's to accommodate two local sisters, who were tailors and seamstresses. For the last 38 years it has been the home of two local artists and musicians who were drawn to its undoubted character and its peaceful village location. It is definitely a home for lovers of the unconventional. In terms of accommodation there is a front porch, entrance hall, two good-sized reception rooms, both with open-fireplaces, a modern garden room (which was added just a couple of years ago) and a galley kitchen. There are three double bedrooms, one downstairs, as well as a bathroom, also on the ground floor. The cottage has gas central-heating and is double-glazed (windows and doors all replaced in 2021). Outside there is parking for two cars and pretty cottage gardens which go all around the property and include a garden shed. If you love period features, want something a little out of the ordinary and crave a slower, quieter pace of life then we would strongly suggest that you visit The Nook.
