## DESCRIPTION

A traditional style three bedroom mid town house located on a cul de sac superbly located for access to Beverley town centre. The well presented accommodation will suit a range of purchasers from families to downsizers and early viewings are highly recommended.

The bay fronted property has accommodation laid out over two floors. The ground floor offers an Entrance Hall, a Living Room with an archway connecting to a Dining Room which has French windows opening onto the garden, an attractively fitted Kitchen with a range of modern units, rear Entrance Hall and a ground floor Bathroom. To the first floor are 2 Double Bedrooms, one with a bay window, a Single Bedroom and a Shower Room. The shower room as well as the bathroom will be of particular interest to a number of purchasers and if the ground floor bathroom wasn't important to a purchaser the space may provide an opportunity for separate utility room or other use. There is a small garden to the front of the property which other similar properties have turned into off street parking (subject to necessary permissions) and further gardens to the rear which are of good size given the proximity to the town centre. Gas central heating and extensive uPVC double glazing.

The current owners have outgrown the house and so are reluctantly moving. The house is in good condition but may offer some opportunity for reconfiguration or even extension (subject to necessary permissions). An early internal inspection is highly recommended but our 360 degree tour will provide an excellent overview in the first instance.
