This period terraced home has been improved and enlarged by the present owners and is conveniently located within a few minutes walk of the town centre and rail station. The property offers surprisingly spacious and adaptable accommodation which now features a converted loft which provides a fourth bedroom and an additional bath/shower room. Many period features are retained, complemented by recent upgrades to include uPVC double glazing throughout with sash style units to the front elevation. The separate reception rooms remain - each with fireplaces - and the kitchen has ample space for family dining. Outside, the enclosed rear garden is well screened and features two patio areas. The property lies on the west side of Bedford's town centre and is ideally placed for the commuter being within five minutes' walk of the rail station. EER: D
