## 7 POOL YARD

- Four bedrooms, two en-suites • Detached house with double garage • Ideal family home • Gated driveway & fantastic garden • Air source heating & solar PV • Open plan living, snug & study

### Plot 7

Another of the higher tier properties on the estate, Plot Seven is our second gated property that sits at the rear of the development, with beautiful uninterrupted views of the countryside. This exclusive residence boasts expansive living spaces across both the ground and first floors, complemented by a generously sized garden, ideal for outdoor entertaining or peaceful relaxation.

Designed with privacy and comfort as priorities, this plot features a gated entrance and a two-car garage, with a first floor ideal for a spacious home office or gym (with private bathroom.)

With its spacious layout and premium finishes, this property is perfect for those seeking a seamless blend of luxury, style, and tranquillity within the countryside.

### Quality & Specification

Plot Seven is finished to an exceptional standard, combining contemporary elegance with sustainable, energy-efficient design. The property features engineered oak flooring to the open plan living areas, concrete-effect porcelain tile in entranceway, kitchens and bathrooms with wool carpets to the bedroom area. The bathrooms and en-suites are fitted with sleek, contemporary fixtures.

Comfort and efficiency are delivered through

underfloor heating powered by air source heat pumps, MVHR, solar PV, and high levels of insulation and airtightness. Energy-efficient composite windows and doors, feature wood-burning stoves, and high-quality finishes throughout complement the property's refined interiors. Externally, the home is beautifully detailed with grey-stained vertical timber cladding, a metal standing seam roof, and handmade brick chimneys, combining modern design with timeless character.

### The Development

A bespoke new development of just eight residential dwellings, set in the beautiful village of Woonton near Almeley in the heart of Herefordshire. This exclusive collection of highly specified, design-led contemporary homes offers luxury modern living within a stunning rural setting. Carefully crafted and built by respected local family-run developer JDW Homes Ltd, the development combines thoughtful architecture, premium finishes and countryside surroundings to create an exceptional place to call home.

Set within the unspoilt Herefordshire countryside, Pool Yard is an exclusive contemporary development that combines refined architectural design with sustainable modern living. Defined by clean lines and high-quality materials, the homes offer an elegant yet practical approach to rural luxury.

Designed by acclaimed local architects RRA Architects,

each residence features generous open-plan living spaces, enhanced by floor-to-ceiling glazing that fills the interiors with natural light and frames far-reaching views across the surrounding landscape.

Thoughtfully landscaped with native planting to enhance biodiversity, the development also benefits from beautifully maintained shared green spaces, creating a tranquil setting and a strong sense of community. Pool Yard offers a rare opportunity to enjoy sophisticated countryside living within a carefully considered and exclusive environment.

### Location

Woonton is a charming and highly tranquil Herefordshire village, surrounded by gently rolling countryside and unspoilt rural beauty. Defined by traditional stone cottages, open farmland and a strong sense of heritage, the village offers an enviable balance of privacy and community. Pool Yard is discreetly positioned on the former farmyard of the adjoining Pool Farm, enjoying a peaceful setting with scenic walks and far-reaching views on the doorstep—an exceptional location for refined countryside living.

### Sustainability & Environment

Designed with sustainability at its core, the homes at Pool Yard combine environmentally responsible materials with advanced energy-efficient technology. Highly insulated construction, energy-efficient glazing and composite doors ensure excellent thermal performance, while air source heat pumps, underfloor heating, MVHR systems and solar PV panels significantly reduce energy consumption and running costs. Smart home technology allows residents to monitor and control energy use remotely, enhancing efficiency and convenience. Thoughtful design features such as roof gardens, balconies, pedestrian pathways and cycle routes encourage a strong connection with nature and promote a more sustainable, active lifestyle, all without compromising on comfort or luxury.
