Old Hall, Carlton Park

Carlton Park, which comprises approximately 19 acres of parkland, some of which is available for private enjoyment of the individual owners, lies just to the north of the market town of Saxmundham which offers a good range of shops in a traditional High Street setting, together with both Waitrose and Tesco supermarkets. The town also benefits from having a railway station which gives connecting services via Ipswich to London Liverpool Street. The delightful Suffolk Heritage Coastline is easily accessible to the east with the genteel and unspoilt coastal towns of Southwold and Aldeburgh both lying within easy driving distance. For music lovers Snape Maltings Concert Hall is the venue for many of the concerts that make up the Annual Aldeburgh Music Festival, whilst those with sporting interests are well catered for in the area with first class golf courses at both Aldeburgh and Thorpeness, a modern sports centre and swimming pool complex at nearby Leiston and for sailors the Rivers Alde and Ore provide some of the prettiest sailing waters on the East Coast.

Property Description

No.5 Old Hall, as the name suggests, forms part of the sensitive renovation of the Old Hall and is a four-bedroom dwelling that has been created and enhanced by the current vendors to provide a fusion of elegance, style and country living. This delightful home is one of only eleven exclusive and highly individual properties standing in approximately 19 acres of scheduled parkland (now largely privately owned), which together form Carlton Park, the former home of the renowned Victorian engineer Richard Garrett. The house offers very modern convenience whilst retaining a distinctly period feel, with high ceilings and internal features including craftsman-moulded cornicing to all rooms.

The accommodation comprises an entrance hall with high ceilings and a returning staircase, complemented by a large sash window overlooking the parkland and accentuating the sophistication of the property. The farmhouse-style kitchen/dining room has been thoughtfully re-modelled by the current vendors, now featuring a clerestory window on the south-west elevation which brings in additional natural light. Newly fitted units, cupboards and shelving sit alongside modern appliances including an induction hob and double electric oven with grill. The gas-fired Aga remains a charming focal point, now serving as an additional source of warmth and cooking capability during the winter months, while being easily switched off in summer without loss of practicality.

A mullion-style opening from the kitchen provides a wonderful vista through the living/dining room and into the insulated, roofed studio/study — a versatile year-round space that now replaces the former orangery. This room creates a natural link to the sitting room

and enhances the already light and spacious accommodation. The living/dining room features floor-to-ceiling hand-built bookcases with cupboards beneath, adding a contemporary touch, while a glazed seating area offers additional light and a delightful spot from which to enjoy the rear gardens. The sitting room includes a wood-burning stove flanked by shelving and a wide bay window overlooking extensive views across the landscaped front gardens and meadows beyond, directly towards Carlton Church. A utility room and cloakroom complete the ground-floor accommodation.

On the first floor, the master bedroom is a dual-aspect room enjoying stunning views to the front and rear, with fitted wardrobes and a recently refitted en-suite shower room featuring twin basins and a large double-tray shower with W.C. The remaining three bedrooms, each with their own outlook, share the family bathroom and a separate shower room. Throughout the property, the vendors have taken great care in creating additional storage and finishing touches which complete the home to a very high standard. As selling agents, we highly recommend internal viewing to fully appreciate what is on offer.

Outside, the gardens reflect the vendors' desire to create spaces that look attractive throughout the year while requiring minimal maintenance, assisted by an integrated watering system. Much of the front and rear gardens are enclosed by a living fence composed of pleached hornbeam. The front garden is landscaped in keeping with its surroundings and features an eclectic mix of well-trained conference pear, quince and Cox apple trees, alongside magnolia and various clipped evergreens. A side access leads to the rear, where a covered area provides an outdoor workspace with a timber shed and log store. The rear garden has been designed to merge naturally into the woodland beyond, giving a generous sense of space. Key features include a miniature Malus (crab apple), which holds its red fruit well

into winter, and an Amelanchier — a Canadian woodland tree known for its blossom and fruit.

Outside

There is a single garage en-bloc available to the property with power and lighting, along with four parking spaces and a wood storage area.
