The kitchen and dining room

The kitchen and dining room forms the heart of the house for cooking and family meals. It features a range style cooker with extractor, ample wall and base units including glass fronted display cabinets and a sink with drainer under a rear window. Integrated appliances include a dishwasher and fridge freezer and there is space for a dining table plus a door to the utility.

The living room

The living room provides a welcoming space for everyday relaxation at the front of the house. A front facing window and quality wooden flooring combine with a staircase rising to the first floor to create character. Wall lighting adds ambience and a door connects to the kitchen and dining room.

The study / fourth bedroom

This versatile room is currently arranged as a study but can serve as a potential fourth bedroom or family room. Converted from the former garage, it benefits from a front facing window and neutral finish. Located off the kitchen, it offers flexible reception space or guest accommodation.

The primary bedroom

The primary bedroom offers a spacious retreat on the first floor. A front facing window brings light while a walk-in wardrobe spans one wall. There is also a door leading to the en suite shower room.

The primary en suite

The primary en suite is fitted with a modern white suite comprising a shower cubicle with glazed screen, a vanity unit with wash basin and a low level WC. Tiled walls complete the room, and an obscure glazed window provides ventilation.

The second bedroom

The second bedroom is a comfortable double set beneath a sloping roofline. It features a dormer style window and a mirror fronted fitted wardrobe for storage. This room is positioned at the front of the home.

The third bedroom

The third bedroom is a generous single that would suit a child or home office. A rear facing window overlooks the landscaped garden and there is ample space for a bed and additional furniture.

The bathroom

The family bathroom serves the remaining bedrooms. It features a panelled bath with shower over and glass screen, a pedestal washbasin and a low level WC. Part tiled walls and a Velux roof window complete this room.

The garden

The rear garden has been designed for ease of maintenance with gravel and paved sections. A paved terrace provides space for outdoor dining, while a raised seating pergola with bench and trellis offers a focal point. The garden is enclosed by panel fencing with trellis and includes a shed and planted borders.

The driveway and parking

A tarmac driveway beside the house provides off road parking and leads to the front door. There is a lawned front garden bordered by hedging and a mature tree that softens the frontage. Dormer windows and a pitched roof add visual appeal to the brick facade.
